EDWARDS MAY CONTROL CITY COUNCIL VOTE

Re-Elected Commissioner Declares His Independence of Mayor Davie and Looks Due to Hold Balance of Power

Williams Can Take Le Ballister's Place as Soon as Bond is Filed, According to City Attorney Hagan's Opinion

Commissioner W. H. Edwards today emphatically denied the statement in last night's TRIBUNE that he is pledged to Mayor Davie and that he has promised to carry out his policies.

"My vote shows that I was elected by the people," declared Edwards, "and they expect me to act in their interests. I am pledged to no program. I am for the Mayor when I think he is right and will support such of his policies as I believe are in the best interests of the city."

Apparently Mayor Davie has a different understanding. In a statement made yesterday the Mayor thanked the voters "for the selection of candidates favorable to me," adding "I am as pleased with the success of Baccus and Edwards as I would be at my own election."

WHY FOR WHOM I WILL BE RESPONSIBLE

On the eve of Tuesday's election, Mayor Davie made a plea for Edwards and Baccus. "I am going to have an administration which will work harmoniously with me. With this end in view I now call upon you to cast aside all personal and party issues and give me four years of good progressive work with men for whom I will be responsible."

Speaking particularly of Commissioner Edwards, he said: "I am assuming this independent attitude, Edwards will hold the balance of power in the council. With the Mayor and Baccus programming, and with Morse and Soderstrom as friendly to the administration, Edwards will occupy a commanding position and is likely to be frequently called upon to determine 'when the Mayor is right'."

WILLIAMS MAY TAKE CITY ATTORNEY'S JOB MONDAY

Harry C. Williams, city auditor-elect, may take his office Monday. City Attorney H. L. Hagan today ruled that Williams has the right to assume his office until the new election, not for the unexpired term of H. C. Day. In other words, he was to serve until he or the successful candidate qualified at the next election. Williams, who has no right to serve to the end of the regular term, and Williams has the right to demand the office at once. The charter is very plain on this point.

LE BALLISTER READY TO HELP HIS SUCCESSOR

Le Ballister says that, in his opinion, Hagan's opinion is correct, but that he will not lend his name to Williams as soon as the latter is ready to accept it.

"I anticipated this," he said, "and from the reading of the charter, I do not see how any other construction could be placed on it. I will be ready to assist Mr. Williams in any way possible to assume the reins of the office at his earliest convenience."

CITY-JURY HOLDERS BUSY WHEN BACCUS APPEARS

"Job saving" was one of the principal occupations of office-holders about the city hall today. Commissioner Le Ballister, who visited the city hall today to see Mayor Davie on business, was besieged at every corner by some former Jackson supporter, fearful of the "axe" when the new city council convenes.

The political axe will fall generally, it is predicted, among positions not under civil service, with the exception of a few department heads.

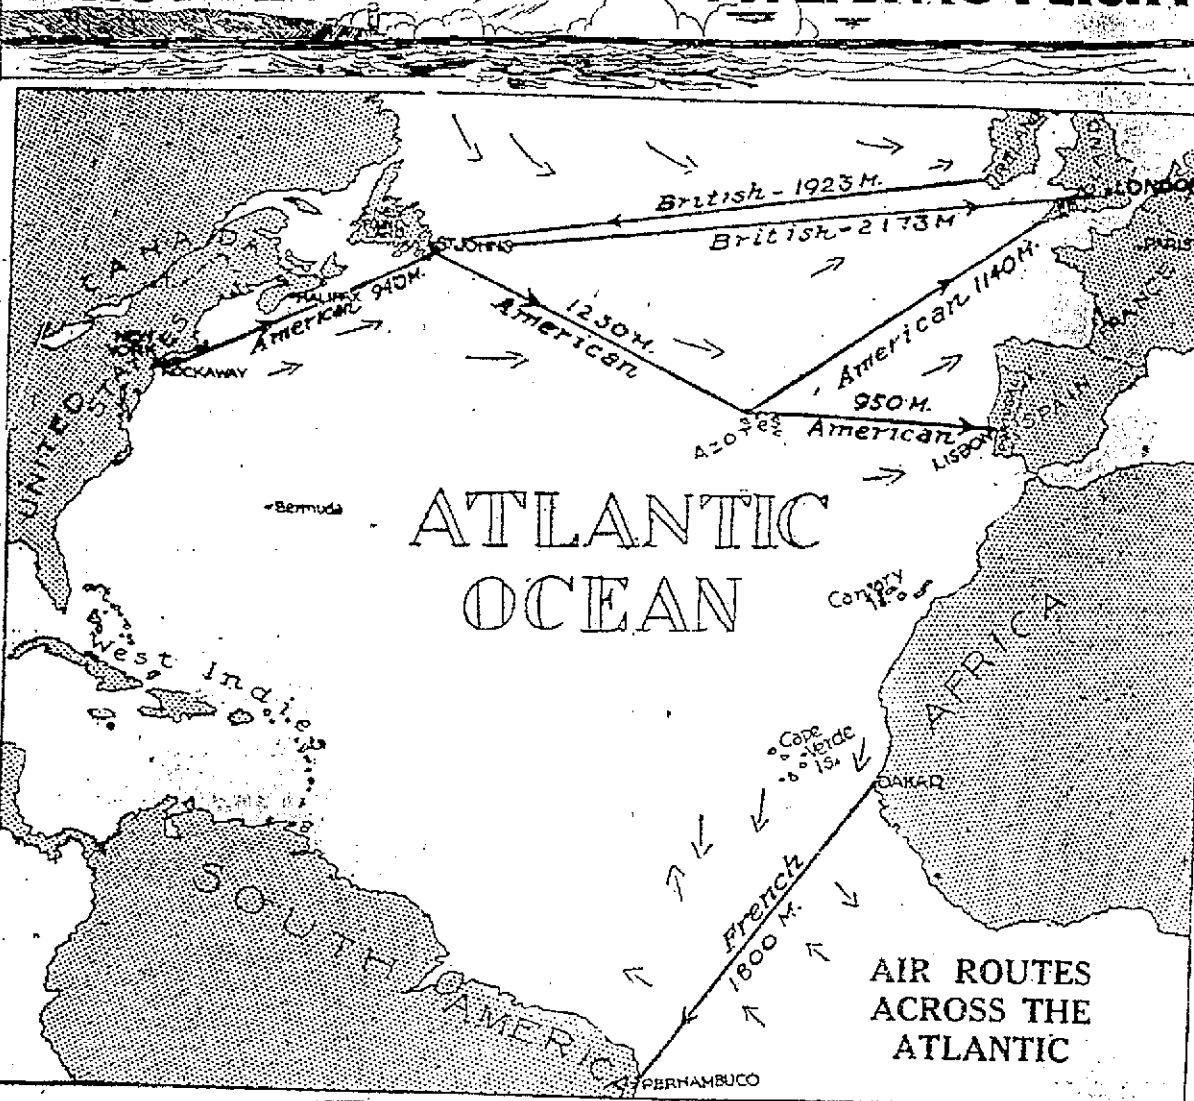

Fire Chief Elliott Whitehead, who served through Jackson's term, being appointed before the latter's election, is conceded to be safe, but it is rumored that Chief of Police Nedderman will be removed. This would restore him to his old rank of sergeant under the civil service rules.

Robert Easton, plumbing inspector, a non-civil service position, will probably go, according to those "wise" to the possible changes, and Building Inspector Joseph Lloyds is also slated for removal.

Harry Smith, inspector in the health department on special service, although a Jackson supporter, is practically safe. He was appointed, being named by Jackson at Davie's request, and it is understood that he

has made many spectacular fortunes. Country land will not grow as valuable as city property. It can, however, be made to grow something yearly, and so is a safer investment. Watch THE TRIBUNE'S Realty Columns, especially on Sunday.

U.S. SEAPLANES "HOP OFF" ON FIRST LEG OF ATLANTIC FLIGHT

Craft Sail North To Halifax on U.S. Shoreline

WASHINGTON, May 8.—The destroyer acting as station ship No. 2 reported that two of the N C seaplanes passed within three miles of her at 3:10 p. m. There was no report on the third plane, which previously had reported engine trouble just out of Chatham, Mass. The plane in trouble was the N C-4. The two advanced planes had covered more than half the distance of the first leg of the first flight at 3:10 p. m.

WASHINGTON, May 8.—The NC-4, one of the three navy planes which today started the first leg of a transatlantic flight, may have to land at sea, according to reports from the navy department today.

The NC-4 was reported to have engine trouble just out of Chatham, Mass. The plane in trouble was the N C-4. The two advanced planes had covered more than half the distance of the first leg of the first flight at 3:10 p. m.

WASHINGTON, May 8.—The NC-4, one of the three navy planes which today started the first leg of a transatlantic flight, may have to land at sea, according to reports from the navy department today.

The NC-4 was reported to have engine trouble just out of Chatham, Mass. The plane in trouble was the N C-4. The two advanced planes had covered more than half the distance of the first leg of the first flight at 3:10 p. m.

GRAFT CHARGE IS READY FOR GRAND JURORS

District Attorney Will Present Case to Jury Tomorrow; New Witnesses to Be Called in the Accusations Made

Rumor Has It That Decoto Was Asked to Hush Up Case After Election, But Plans to Press an Investigation

District Attorney Ezra W. Decoto conferred today with Captain Peterson in regard to the presentation of the alleged Chinatown police graft charges before the grand jury.

Decoto authorized no statement in regard to how the matter will be opened up, what witnesses will be called or whether they will testify, and would not say whether or not the investigation will proceed without interruption after the preliminary statement of the case to the grand jury.

REFUSES TO DROP CASE AFTER ELECTION DAY

Several new witnesses, never mentioned in the Morse investigation of the Peterson graft charges, will be called in the grand jury hearing, it was estimated today.

Decoto had ordered that no public announcement be made of the exact time that the grand jury would sit up the matter, but it is believed at the City Hall that it will be early next week, as several witnesses have had suggestions to be ready at any moment to be called on for their testimony.

MOISE GIVES HIS DATA TO DISTRICT ATTORNEY

Commissioner F. F. Morse, whose "hearing" before election was criticized for the alleged handling of the work of the district attorney in probing the charges against Chief of Police J. H. Nedderman, Commissioner F. F. Morse and several policemen, today said he had turned over his hearing and had turned over his data to the district attorney.

"I will hear no more witnesses," he said. "I have been placed in a false light in this matter. All I want to do is to get to the bottom of these graft charges as they affected my department."

MOISE DENIES RUMOR

He said he had turned over his hearing and had turned over his data to the district attorney.

"I will hear no more witnesses," he said. "I have been placed in a false light in this matter. All I want to do is to get to the bottom of these graft charges as they affected my department."

There is talk around of a recall against him, he said. "That, I feel, is being initiated by a few people in public life. I don't take it seriously—never paid any attention to it, but perhaps I can say that I will resign, but I will not resign under pressure, and all that sort of thing."

1 DEAD AND SIX INJURED IN MARE ISLAND BLAZE

VALLEJO, Cal., May 8.—(United Press.)—A fire at the Mare Island naval yard today killed one man and injured six others.

The fire broke out in a building used for storage of materials. The cause of the fire is being investigated.

Austria to Pay Indemnity; New Triple Alliance Near; U.S. May Supervise Armenia

President Wilson to Submit English-French Pact With This Government to Congress; Also Question of Mandatory in Turkish District

NEW NATIONS CARVED FROM AUSTRIA

PARIS, May 8. (By the Associated Press.)—The council of four, with Premier Orlando of Italy present, began today to arrange for presentation of peace terms to the Austrian, Hungarian and Bulgarian delegates. The Austrian treaty was begun today. Portions of it already have been drafted.

It appears that instead of Germany being required to pay the entire indemnity demanded by the allies a considerable sum will be demanded of Austria, the estimate of this sum at this period being 5,000,000,000 crowns.

The indemnity provided for in the distribution of the frontiers of the new state will be the main feature of the treaty now in making. Provisions to be made for dividing Austria-Hungary's pre-war territory among the states to be formed from territory formerly belonging to that empire.

The frontiers between German Austria and Italy and probably the Adriatic settlement, will also figure in the Austrian treaty.

U. S. MAY BECOME MANDATORY IN EAST

The president is expected to become the mandatory for Armenia. The indications are that President Wilson will submit the matter to Congress.

HUN PRESS OPPOSED TO PEACE TERMS

BERLIN, May 8.—The press commenting on the advance summary of the peace terms today, declared that several of the points could not be accepted. The Tagesspiegel, for instance, said that 100,000 soldiers are not sufficient to maintain internal order, and added:

"We decline to have an eternal state of anarchy."

The newspapers pronounced the indemnity excessive and denounced disposition of Danzig and the Saar Valley.

PARIS, May 8.—Newspaper opinion was divided here today regarding the peace treaty.

The crime of 1918 has been explained, but the crime of 1914 seems to have been considered irreparable, said the Matin. "It remains for France to pay war costs of approximately 100,000,000,000 francs (\$33,400,000,000)."

"The fourteen points have been scrupulously respected," declared the Petit Parisien. "Despite Brockdorff-Rantzau's words, the world has been relieved of the weight of German imperialism."

Other comment was:

Petit Journal: "Many regret that Wilson's principles prevented us from getting the Saar Valley. The treaty constitutes an honorable compromise."

Verke: "The treaty will not satisfy anybody. Those not wishing France to die of victory will not approve the treaty, which would force the French to ruin themselves by paying the costs of the war."

LONDON, May 8.—London newspapers generally approved the terms of the peace treaty today.

"The terms are ample security for the future and just reparation for the past," said the Express. "It is a good and great peace. Premier Lloyd George has kept his election pledges."

"Execution of the terms depends on the League of Nations," was the Mail's comment. "If Great Britain, France, the United States and Italy stand together to shoulder, then a new world order will have dawned."

"The principles are good, hence it is a good peace," said the Post. "If the principles are put into practice, the treaty will be better than has been anticipated."

"It is an honest attempt to bring to

Clemenceau Presents Ally Terms Foe Given Fifteen Days to Sign Germans Offer Plea in Reply

VERSAILLES, May 8.—Following is the address of M. Clemenceau to the German delegates at the peace congress:

"Gentlemen, plenipotentiaries of the German Empire: It is neither the time nor the place for superfluous words. You have before you the accredited plenipotentiaries of all the small and greater powers united to fight together in the war that has been so cruelly imposed upon you. The time has come when we must settle our account."

"You have asked for peace. We are ready to give you peace. You shall present to you now a book which contains our conditions. You will be given every facility to examine these conditions and the time necessary for it. Everything will be done with the courtesy that is the privilege of civilized nations."

"To give you my thought completely, you will find us ready to give you any explanation you want, but we must say at the same time that this second treaty of Versailles has cost us too much not to take on our side all the necessary precautions and guarantees that the peace shall be a lasting one."

NO ORAL DISCUSSION.

"I will give you notice of the procedure that has been adopted by the conference for discussion, and if anyone has any observations to offer, he has the right to do so. No oral discussion is to take place, and the observations of the German plenipotentiaries will have to be submitted in writing."

The German plenipotentiaries will know that they have the maximum period of fifteen days within which to present in English and French their written observations on the whole of the treaty. Before the expiration of the aforesaid period of fifteen days the German delegates will be entitled to send their reply on particular headings of the treaty or to ask questions in regard to them."

"After having examined the observations presented within the aforesaid period, the supreme council will send their answers in writing to the German delegation and determine the period within which the final global (world-wide) answer must be given by this delegation."

The president wishes to add that when we receive, after two or three or four or five days, any observations on any point of the treaty, we shall wait until the end of the fifteen days to give our answer. We shall at once proceed in the way indicated by this document."

M. Clemenceau spoke in French.

GERMANS MAKE REPLY.

Cavat von Brockdorff-Rantzau, head of the German delegation, speaking in German, said:

"The German people are deeply impressed with the sublime task which all the people the objects within the peace," the Chronicle said.

"The government has redeemed its pledges. Germany's disarmament is drastic enough for the immediate future, giving the rest of the world a chance to start voluntary disarmament."

Wife Files Suit Here; Husband in Nebraska

OMAHA, Neb., May 8.—Billy Leet, wealthy sportsman, who recently shot himself in San Francisco, today filed suit for divorce from Martha Ruddy Leet, daughter of a wealthy Aurora, Ill., manufacturer. His charges here with extreme cruelty. Mrs. Leet has a divorce suit against her husband pending in San Francisco. Mrs. Leet charged that Leet shot himself in an attempt to have her drop her suit.

Attorneys for Leet say the San Francisco suit is void, as Omaha is the home of the couple and the suit should be filed here.

The Engagement Ring

Assurance of superior quality, however moderate the price paid, is a most gratifying condition when purchasing the lifelong symbol of deepest sentiment.

ACT FOR FOE? OFFER SPURNED BY PRESIDENT

PARIS, May 8.—When President Wilson returned to Paris after the peace meeting yesterday great crowds cheered as his limousine passed. The President rode alone. There were many women and children in the crowds that greeted him, and he was compelled to ride nearly the whole distance bareheaded, as he kept removing his hat to acknowledge the greetings.

Twice the auto was compelled to slow down because women insisted upon remaining in the middle of the road, attracted by the flag flying from Wilson's car.

It was plain that President Wilson's mind was dwelling upon the Germans' reply when the terms were delivered.

Before leaving the Trianon palace Versailles the suggestion was made to the President that the Germans were apparently ready to accept his leadership. Wilson impatiently shrugged his shoulders and said that he was not interested inasmuch as America is standing a day upon the same principles as when she entered the war. This attitude is that Germany must pay to the utmost of her ability and any suggestion that the President is Germany's friend will be entirely dispelled when the complete terms are made public.

CUT ROAD BOND ELECTION COSTS

County Clerk George E. Gross applied to the Board of Supervisors today for authority to consolidate precincts in the State Highway bond election on July 1. The request was granted. The consolidation, Gross figured, will reduce the cost sufficient to enable him to conduct the election for approximately \$10,000.

It is estimated that the number of voting places for the election can be reduced to 225. There will be four election officers at each booth, who will receive, it is expected, \$6 each. Already \$2,000 has been expended by applicants for position on the boards.

Alaskan Friendship
in Burglary Theory

I. Sliani, Dmitriy Parnokov and Giovanni Truini, living at 1115 Chestnut street, reported to the police today that they had been robbed by a burglar entering the house from an open rear window. They reported that they had lost \$1,000 in cash, a quantity of clothing had been taken.

Mrs. Sam Donahue, who lives across the street, said a young Italian came to her house yesterday afternoon and asked where 1115 was. She said she told him and he immediately went over and tried to enter the front door which was locked. Truini says some few days ago he gave an Italian he had known up in Alaska, his address and describes the same man. Mrs. Donahue directed to the house.

Accused Teacher
May Lose License

SACRAMENTO, May 8.—Revocation of the teaching license of Ferdinand A. Varrelman of Los Angeles was recommended today by Will C. Wood, state superintendent of public instruction. Wood said the recommendation was made on the ground that Varrelman was alleged to have evaded the draft and had distributed Industrial Workers of the World literature.

LEAGUE OF NATIONS

"Gentlemen: The sublime thought to be derived from the most terrible disaster in the history of mankind is the league of nations. The greatest progress since development of mankind has been pronounced and will make its way. Only if the gates of the league of nations are thrown open to all who are of good will can the aim be attained, and only then the dead of this war will not have died in vain."

"The German people in their hearts are ready to take upon themselves their heavy lot. If the hopes of peace which have been established are not more shaken."

"The peace which may not be deferred in the name of right before the world always calls forth new resistance against it. Nobody will be capable of subscribing to it with good conscience, for it will not be possible of fulfillment. Nobody could be able to take upon himself the guarantee of its execution which ought to be in its signature."

"We shall examine the document handed to us with good will and in the hope that the final result of our interview may be subscribed to by all of us."

Meeting the Demand for a Bifocal Expert

Owing to the constant increase in the number of Bifocals worn it has been found necessary to procure men who specialize in this particular kind of work. With this in mind the Chinn-Beretta Optical Co. has obtained the services of Mr. James Hamblen, who, from long experience with double lenses, is qualified to give expert advice on this subject. Whether you are a Chinn-Beretta patron or not there is no charge for this service.

CHANGE IN ADVISORS IS QUICKLY MADE

(Continued from Page 1)

has made his peace with the city's executive.

Smith is president of a "hospital association" that has among its chief works a political system used by candidates to "keep tabs" of districts. The collectors for the association, traveling from house to house, do active politics. The association keeps in its headquarters in the Central Bank building a card index of districts, with preferences of voters, how they may be reached, and other political information. Much of the data of the old Taxpayers' League is in this collection. The association has in its membership practically every shipyard worker and factory laborer in Oakland.

WYRELL MENTIONED AS SUCCESSOR TO HAGAN

City Attorney H. L. Hagan, it is rumored, will be replaced by Edward Wyrell, former state senator. Wyrell began his political career as secretary to Mayor Frank K. McHugh, whom Davis defeated for the mayoralty. Wyrell has held a number of important state attorneyships.

Civil service employees will be little affected by the coming shake-up. Uncertainty is manifest as to what will be done by Auditor-elect Harry Williams, especially if he takes office at once. It is an open secret that Harry L. Boyle, defeated candidate, who actively supported Williams, has been promised something, "shake-up" his office will not say. Through the peculiar and intricate nature of the auditor's office work, and because certified accountants are now working on the auditor's books, it is expected that no immediate changes can be made. Williams says he "will run the office efficiently," but will not comment further on possible changes.

The department men are all old Baccus men, and no changes are expected there.

EDWARDS THANKS VOTERS FOR SUPPORT

Commissioner W. L. Edwards today issued the following statement:

"To the Citizens of Oakland: I desire to express my thanks to the citizens of Oakland for my re-election to the office of commissioner. I am proud to be the public trustee of the city, and I am gratified indeed to find that my efforts in the past have been met with popular approval."

I approach the duties of my new term with the renewed determination to continue the policy of municipal economy, efficiency and strict law enforcement, which I have heretofore adopted."

CONTRACT SIGNED FOR SANITARIUM

The contract for the construction of three new buildings at Arroyo Sanitarium has been signed by McLaren & Peters, the San Francisco contractors, whose bid was accepted for \$111,550, and will be up for approval by the Board of Supervisors next Monday.

Following the submission of their bid, the firm wrote a letter to the board to withdraw it, contending that they had bid too low and stood to lose money. The board refused to release the matter in vain two or three times. The board took the position that they could not adopt a measure calculated to save the bidders from a slight loss by resulting increased cost of approximately \$11,000 to the city. The board intimated that they would fight in the courts, but after final refusal by the board to release them they signed the contract.

It was said in the board that pressure had been exercised by Oakland contractors to have the bid canceled in the interest of having the work done by Oakland people.

89th Division
Prepares to Return

KYLLBURG, Germany, May 8.—Movement of the 89th division to France, on route to the front, was completed today. The first unit of 1000 left from west of Treves late yesterday. The remainder are following in three trains daily.

At the decoration ceremony in Treves, Commandant de Manne, of the French staff, affixed the croix de guerre to the colors of the 353rd Infantry for bravery at St. Mihiel and in the Argonne. Twenty-seven officers and men received the croix de guerre and two received also the distinguished service cross.

The 89th is composed of national army men of Kansas, Missouri, South Dakota, Nebraska, Colorado, New Mexico and Arizona.

Private Funeral
of Dr. J. M. Dunn

SAN FRANCISCO, May 8.—Funeral services were conducted privately this morning for Dr. John M. Dunn, one of the best-known dentists in this city for a number of years. Dr. Dunn's death occurred Tuesday after a brief illness.

The deceased dentist is survived by two brothers and two sisters, Dr. Martin J. Dunn of Berkeley and Major William L. Dunn, U. S. A., and Misses Margaret C. and Mary T. Dunn of Piedmont.

Dr. Dunn's residence was at 755 Pine street. He was a native of this State, the son of a pioneer California family. His professional education was secured in the West, and his practice, which had come to be very large at the time of his death, had always been in this city.

Officers Elected
by Retreat Board

At a general meeting of the members of the Laymen's Retreat Association the following were elected for the year:

Thomas R. Bannerman, president; P. J. Dunne, secretary; George J. Dougherty, assistant secretary; executive committee—John M. Hengeman, Dr. A. V. Hughes, James P. Murphy, R. M. F. Soto, A. J. Theis.

It was announced that five retreats would be held in 1919 at the University of San Carlos June 19 and 26, July 10, 17 and 31. Applications should be made to the moderator, William M. Boland, S. J., at the University of Santa Clara.

Art Sale Starts Word Battle Gifts Are Tagged, Charge Made

There is talk today in art circles, and in the circles of those who have reverence for the things that stand for the past but who have no great knowledge of art. And in the one case, first, the talk is a sort of querulous discussion that has a tendency toward affirming belief that once again has a sort of vandal impulse descended upon hallowed institutions, and that things once accepted as wholly worthy have been slated for the discard.

In the case of the second group it is not so much a case of the question of worthiness but of wonder if said hallowed institutions, to wit, the San Francisco Art Association, is preparing to cast out paintings that once were considered not only works of masters but, as well, works that were to perpetuate the names of those masters.

And the reason for all this conjecture is the fact that without preliminary sounding of alarms, there has been placed on sale in a store room evidently the contents of a large collection of the pictures that formed the nucleus of the Art Association collection that once was a magnet that drew throngs to the Hopkins Institute of Art, and afterward formed one of the attractions in the Art Palace out on the old Exposition grounds.

And there is one more question being asked, and that is "Who is sponsoring the sale?"

To this there is no definite answer. As sales go, it is an important affair in San Francisco, for among the canvases are examples of Denman Constant, whose pupils, many of them, are numbered among the California group of painters; of Lesser, which hung until last week in the Palace of Fine Arts; of Jacobus, Franca, Vanderlyn, and a group of the older California men—Keith, Brooks, Becker, Williams, Gill and others.

SOME OLD ONES.

Among the pictures are some that San Francisco has grown up with—"Piercing the Ears," "The Monks," "At Carthage" and a group of interiors that have been part of San Francisco's art inspiration for years and years before the fire.

And now that they are going on the auction block, students and patrons are asking: "Who is selling these pictures, which are a heritage, one to speak, from the beginning of art on the Pacific Coast?"

"How about it?" was asked of one of the progressive artist directors. "Is the San Francisco Art Association getting rid of some of its old things, as the Metropolitan in New York has so often threatened to do? Has the San

Francisco Art Association 'pep' enough to break a precedent and hold a 'superfluous sale of works of art'?"

NO ADMISSION.

The Art Association heads do not openly admit that they are behind one sale, they declare that they are keeping the best examples of the work of those same painters whose pictures are being sold at auction. It is admitted by the Art Association that while it does not consider the paintings being offered for sale as the best examples in San Francisco, they have had thousands of admirers during the years in which they have hung in the old gallery on the California street hill, who will now be able to buy them if they so desire?

TO USE MONEY.

The Art Association declares further that with the money resulting from the sale of the old pictures and the old masterpieces, some of which it has not exhibited in many years, it will purchase "the things it wants for a modern, up-to-date museum; things which will stimulate art."

"But how about the Keith and the Virgil Williams and the Thomas Willams, who are the best of the old masters? Are they to be sold?" But there something of sentimental revolt in putting these on the block when some of them were gifts to the Association? This is a second question that the art lovers of San Francisco are asking of the Art Association, and the heads answer: "Hardly that. The examples that have been retained are more expressive of the painters than those on sale—more worthy of their future reputations."

SENTIMENTAL SHOCKED.

And so it is that those sentimental souls who love the old things for old time's sake, or those others who are not addicted to modern art, may assuage their grief at their passing by buying them, and as the story is leaking about town, there's much ado among the painters and the students and the patrons about the propriety of selling objects of art that are gifts.

The progressives in the Art Association declare that if the gifts fail to meet the normal requirements of an art gallery, and gifts have been accepted without submission to a jury—they should be put in the basement and not on the walls.

STARTS BATTLE.

Today's sale has started the battle anew between the moderns and the academicians, and the question is tossed from one studio to another: "Will the layman support the academicians by buying their old canvases and their pretty marbles, or will he support the moderns by allowing them to remain in the basement?"

RED CROSS PEACE WORK DISCUSSION

A conference of importance has been arranged by the Pacific Division, for the Red Cross workers for tomorrow at the headquarters of the San Francisco Chapter Civic Center.

Delegates from all chapters in Northern California will meet at 9 a. m. At 10 there will be a series of round table conferences regarding a peace program for all chapters.

Luncheon will be served at noon by the San Francisco Chapter of School Dietetics, with an accompaniment of moving pictures and music.

The afternoon will be given over to further discussion of the gigantic tasks of the reconstruction period.

EXTRA LONG WEAR FROM SHOES

T. D. Collins of Ocala, Hawaii, makes a remarkable statement which demonstrates the money-saving durability of Neolin Soles.

He writes: "After wearing a pair of Neolin-soled shoes off and on for thirty-three months, I wore them on a trip to the volcano of Kilauea and walked around the crater over hot lava six times and still the soles showed no slight signs of wear."

This experience is not accidental. It results from the scientific process by which Neolin Soles are made to be exactly what soles should be—comfortable, waterproof and exceedingly economical because of the long wear they give.

Get them on new shoes for all members of the family and have them put on worn shoes. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.

Says Husband Tore Up Flower Garden

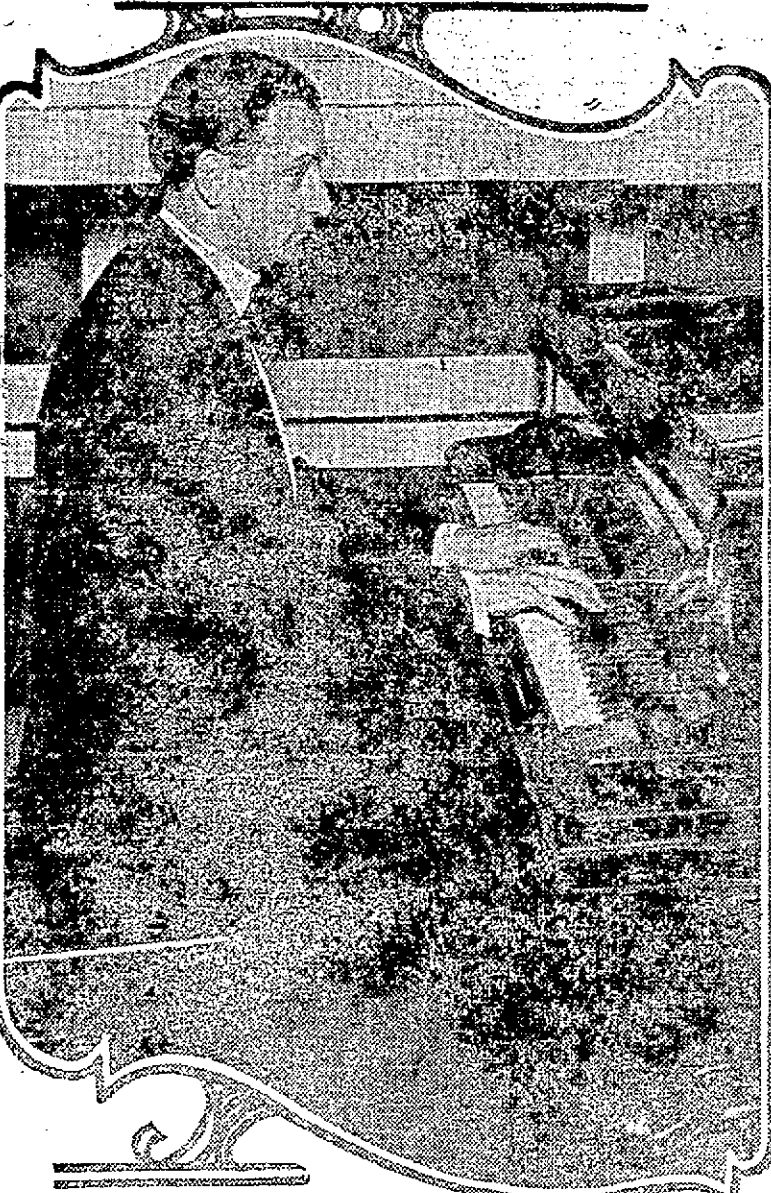

Mrs. Myrtle Bloomer complains in her action for divorce that her husband, Frank Bloomer, told her she was too worldly, and "spiritually unsuited to have children." She further alleges that he struck her with his clenched fist because she refused to sign a property agreement in contemplation of separation. Mrs. Marie Schanzer alleges in her divorce complaint that her husband "ran wild" and tore up the flower beds in the garden, and Rose Kent alleges that Ross Kent is of

Mills College Music Offering Saturday

The annual concert of the Department of Music, Mills College, will be held Saturday at 8:15 o'clock in the Colonial ball room of the St. Francis Hotel, San Francisco. A program of vocal, piano and violin numbers with cello and viola will be presented under the direction of Edward Faber Schneider, dean of the Department of Music. The public is invited.

such an unseemly nature that her married life has been a drudge.

Brilliant Pianist Featured at the American Theatre

RAYMOND D. VALERA, talented pianist with John Wherry Lewis and his orchestra at the American Theatre, whose rendition of Liszt's famous fantasia on Verdi's opera "Rigoletto" is a feature of this week's musical program.

The enormous belief, so long prevalent in America, that it is only possible for those who study in Europe to acquire a thorough knowledge of music, develop impeccable technique and attain that high degree of artistry which the most talented musicians are supposed to possess, is being rapidly dispelled.

The splendid accomplishments and notable achievements of "made in America" musicians—both at home and abroad—during recent years has thoroughly demonstrated the fact that the American school of music is producing artists who are capable of performing as brilliantly as those who have received their musical education in the conservatories of Europe.

One of the products of the American school of music whose splendid work has won the plaudits of the public and the highest commendation of western musical critics is Raymond D. Valera, solo pianist of John Wherry Lewis' American Theatre orchestra.

COMES FROM MUSICAL FAMILY
This accomplished musician comes from a musical family whose fame extends from the Atlantic to the Pacific. "Dick" and Ida Valera, the father and aunt of Raymond, were distinguished

operatic stars in the happily remembered days of the old Tivoli Theatre, San Francisco. Valera has the enviable and well-merited reputation of being one of the best piano soloists and accompanists on the Pacific coast, his wide knowledge of musical art, his splendid technique and his complete mastery of the key board having placed him at the very top of his profession. This success has not been attained without diligent effort on his part. Since his early youth he has been a hard, conscientious student of music and an indefatigable worker whose thoughts were ever centered in his art.

TWELVE YEARS WITH LEWIS
Valera became associated with John Wherry Lewis some twelve years ago and has played with the well-known orchestra ever since. This fact counts for the remarkable sympathy that exists between the two musicians. As a special musical feature during the Geraldine Farrer-Perry Island engagement at the American Theatre this week Valera is playing, at every evening performance, a delightful piano solo, "Rigoletto Fantasia" by Liszt. Valera, a number that affords excellent opportunity for the display of this gifted musician's exceptional ability.

HUN ENVOYS 'INSULTING, INTOLERABLE'

LONDON, May 8.—After the conference at Versailles, William Hughes, premier of Australia, said, according to a Reuters despatch: "The attitude of Count von Brockdorff-Rantzau was an intolerable insult to the conference, for while Premier Clemenceau spoke standing, the German spokesman did not rise while making his address. In spite of their intolerable arrogance, this has been a day of humiliation for the Germans, which we could see had entered into their souls."

William F. Massey, premier of New Zealand, said: "The Germans were more impudent and aggressive than anything I have ever met."

After the conference, the despatch states, the members of the council of four did not appear to be leaving, but it transpired they were holding a meeting, and shortly after 4:30 o'clock President Wilson departed, looking serious but smiling. He saluted the crowd as he went to his automobile. A little later the appearance of Mr. Clemenceau was a signal for the first great wave of cheering for the day. Premier Orlando also received an ovation, but Premier Lloyd George, the last to leave, is said to have been given a more generous reception from the throng.

By LOWELL STELLATT.

United Press Staff Correspondent.
PARIS, May 8.—The Germans will never sign" was the expression heard from many lips in Paris today, following publication of the treaty draft and Brockdorff-Rantzau's speech at Versailles.

The same men attached to the American commission who a few days ago told the United Press the chance of the Germans signing was about "fifty-fifty," are now among those saying the enemy will never accept the terms. Men who recently were confident the Germans would sign now say the chances are about even.

The impression created in French circles by Brockdorff-Rantzau's speech can be summed up in one word—"insolent."

Some of those expressed the belief he seized the occasion as the first and last opportunity to address the allied delegates and therefore profited to the fullest extent.

"Brockdorff-Rantzau's impudent speech was intended more for history and home consumption than for the allies," said one high personage.

Paris and Berlin in Communication Again

BERLIN, Wednesday, May 7. (By the Associated Press)—Wireless communication between Nauen and the Eiffel Tower in Paris has been resumed so that the German peace delegation can keep in close touch with Berlin. The foreign office here is connected with Nauen by direct wire and the peace delegation has a direct wire from Versailles to the Eiffel Tower. Both wireless stations are equipped with receiving apparatus.

Bank Employees in Paris Continue Strike

PARIS, May 8.—The strike of the bank employees continues. Several thousand men and women participated yesterday. Before their appearance the military guard had been withdrawn so as to avoid any semblance of military honor. Count von Brockdorff-Rantzau and Herr Landshut came out first and the whole party was quickly shown into automobiles, which left immediately under a British and French escort moving through crowded streets, the absolute silence of which of which was oppressive.

The Germans were conspicuously diplomatic in their appearance and they suggested rather a party of travel-stained tourists as they entered their motor cars.

Germans Haughty at Peace Table "Big Three" Resent Biting Words President Wilson Shows Tension

VERSAILLES, May 8 (By the Associated Press).—The scene at the Peace Congress when the terms of the treaty were presented to the German delegates was an impressive one, and the function was not one without its tense moments. Indeed, the entire half hour which it took Count von Brockdorff-Rantzau to deliver his reply to Premier Clemenceau was a period of tension for President Wilson, Premier Clemenceau and Premier Lloyd George, and in fact for virtually everyone present.

The speech was translated sentence by sentence by the German interpreters, who did not fail to bring out with full emphasis every sharp phrase in it, and the three allied statesmen put their heads together in evident anxiety to grasp the meaning of the German spokesman's cutting utterances, as if they were deliberating upon the advisability of an immediate answer.

ALLIES REMAIN BEHIND.
The allied triumvirate remained after the German delegates had left for a half-hour discussion.

The scene within the hall during the ceremony had nothing to recommend it, and after earlier peace conferences—no display of court and military uniforms such as marked the congresses of Berlin and Vienna; no theatrical commotion; it seemed to be a matter of indifference, however, by their very circumstances.

BIG MEN DRAW EYES.
At the head of the table the striking faces of Premier Clemenceau and Lloyd George and President Wilson

attracted every eye. Marshal Pich, sitting with the French delegation at the head of one of the side tables, was another conspicuous figure. The bearded faces of the Serbian statesman, M. Pachitch, and the Greek premier, M. Venizelos, as well as the familiar head of Ignace Jan Paderewski, the Polish premier, also stood out from the mass of delegates.

Impassive faces of the Japanese representatives, the Oriental lineaments of the Chinese, the brown countenances of the Arabs from Hadjaz, and the presence even of the two delegates from Liberia and Haiti gave evidence that this was really a world congress.

GERMANS ARE CALM.
The Germans, who entered the chamber with all the confidence of victors, bore themselves without a trace of nervousness, and acted as if they were taking part in the deliberations on equal terms with their adversaries.

The ceremony, which attracted to the hall a crowd of correspondents and officials, who began arriving at an early hour, started at 2:30, when servants brought huge armfuls of the printed peace treaty and distributed them one copy to each around the great room.

BIG THREE ENTER.
At 2:55 o'clock Premier Clemenceau and Stephen Pichon, the French foreign minister, entered for a final survey of the arrangements and waited to await the arrival of President Wilson, Secretary of State Lansing

also appeared for an instant at 2:50 o'clock. The minor delegates now were streaming into the room and virtually all were assembled in their places when at 3:05 o'clock President Wilson, accompanied by other American delegates and Premiers Clemenceau and Lloyd George, entered in a body and moved informally to their places at the head of the table.

Premier Orlando and Forein Minister Sonnino of Italy followed an instant later. Both of them were ordered to shake hands with President Wilson and Clemenceau before seeking their places.

STATESMEN CHAT.
While the assemblage was seating itself, Premier Clemenceau and President Wilson engaged in an animated conversation. Premier Lloyd George and Arthur J. Balfour, the British foreign secretary, also engaged in a chat. Premier Paderewski during this interlude made a belated appearance.

After a five-minute wait, Colonel Henry, the French liaison officer, appeared in the chamber, heralding the approach of the German delegation. The Germans entered the door an instant later, preceded by a functionary of the French government wearing the glittering chain of his office, who announced in a loud voice: "Messieurs, the German delegates."

GERMANS FIND PLACES.
There was some little confusion among the Germans while they were finding their proper places.

Count von Brockdorff-Rantzau, who entered, gloves in hand, took the center chair, with his five colleagues and Director von Stockhammer of the foreign office flanking him on either hand. Five German secretaries and their interpreters took their places at tables in the rear.

Premier Clemenceau, as president, then arose and declared the session opened. He started immediately upon his speech, pausing to permit German by French interpreters. The translation into German was decidedly faulty and halting.

SILENCE GREET'S HUN DELEGATION

VERSAILLES, Wednesday, May 8. (By the Associated Press).—The German delegates were the first to leave Triano Palace after the meeting yesterday. Before their appearance the military guard had been withdrawn so as to avoid any semblance of military honor. Count von Brockdorff-Rantzau and Herr Landshut came out first and the whole party was quickly shown into automobiles, which left immediately under a British and French escort moving through crowded streets, the absolute silence of which of which was oppressive.

The Germans were conspicuously diplomatic in their appearance and they suggested rather a party of travel-stained tourists as they entered their motor cars.

Playgrounds Will Hold Loan Rallies

Victory Loan rallies will be held Friday afternoon at 2:30 on all the playgrounds in the city. The first rally, at Sixty-second avenue, Grover Carlen, playground director, recently returned from active service in France, will have charge of the celebration. The children of Bay school will parade. There will also be community singing led by Pierra Marvin, instructor of music in the Bay school.

Busby Playground and Washington school children will parade in the neighborhood of Sixtieth and Shattuck with banners and flags.

At Mosswood Playground, Emerson and Grant schools will parade as follows: On Thirty-seventh street, east to Telegraph avenue, on Telegraph avenue, north to Forty-ninth, on Forty-ninth to College, and south on College to Twenty-eighth and back to Mosswood park.

Park Boulevard Playground, at Park boulevard and Newton avenues, will have a large representation of tanks made from the boys' costumes. The Fremont and Poplar Street playgrounds will have celebrations with speakers and music.

At 3 p. m. groups from these and other playgrounds under the leadership of Grover Carlen will rally in front of the city hall. Oliver Hyde, 8-year-old boy, will be the first speaker.

French Parliament Gets Treaty June 4

PARIS, May 8. (Havas).—The peace treaty with Germany, the Echo de Paris says today, will be presented to the parliament for ratification probably about June 4 or 5. The general comment of the Paris newspapers on the treaty is that in the honor of France has been satisfied and the efforts of its authors to give satisfaction to the legitimate claims of the nations wronged by German aggression are acknowledged.

MEXICO GIVES OIL RIGHTS TO JAPANESE

MEXICO CITY, May 7.—A Japanese government commission, headed by Baron Hasegawa, captain of engineers, has virtually completed an investigation of the petroleum possibilities in the Tampico region, it was learned today.

The department of industry and commerce states that the commission plans to conduct surveys in other parts of the republic and that concessions for oil explorations in the northern part of the country, particularly in the states of Durango and Chihuahua, have been secured by the Japanese.

These activities constitute only one phase of what apparently is an almost frenzied campaign of exploration throughout the republic of Mexico by foreign interests.

Reports are common that indications of oil have been discovered not only in undeveloped fields in Durango and Chihuahua but on the Pacific Coast and also on the Isthmus, in the states of Chiapas and Tabasco.

ANARCHISTS ARRESTED.
BUENOS AIRES, Tuesday, May 8. The police of this city are rapidly

TREATY DEPENDS ON ENGLISH-U. S. GOOD RELATIONS

LONDON, May 8.—"If the summary of the peace treaty, as made public, represents the text, it looks good on paper on the military and naval side, but is dangerously full of loopholes on the financial end," said the Daily Mail today in commenting upon the terms.

"The real security of the treaty's execution rests with the League of Nations, and above all else the continuation of the close union between Great Britain and the United States."

"The destruction of Prussianism must be unlimited throughout Germany," said the Evening News. "The disarmament of Germany is the preliminary to disarmament of all nations."

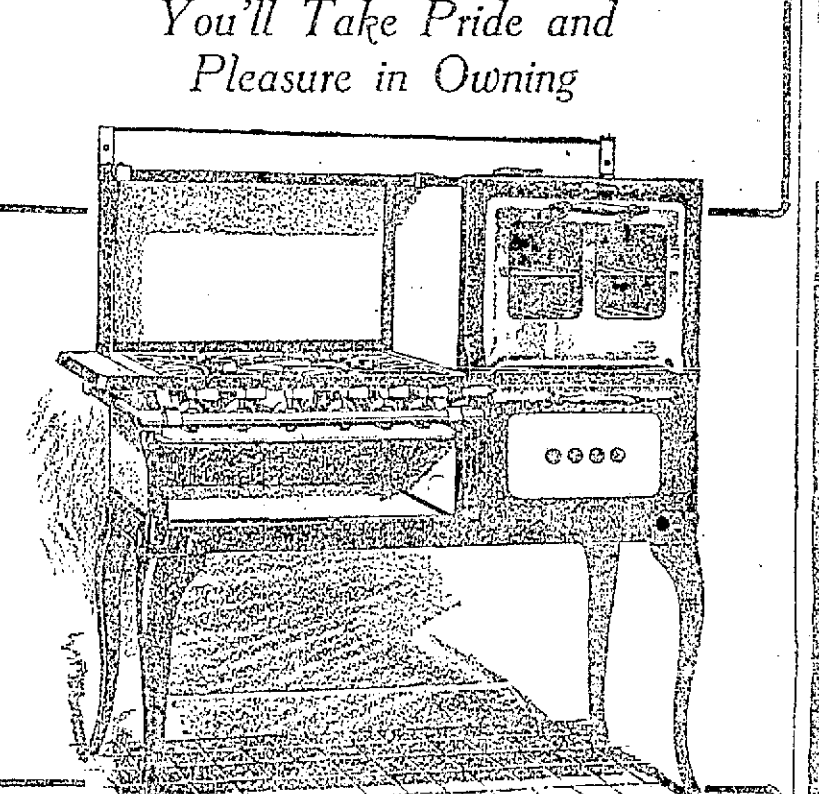

Says Two Men Took \$80 Roll From Him

After a night's drinking party, Oat Anderson, 5567 Lawton avenue, reported to the police that two men emptied his pocketbook about 1 o'clock this morning and leaving him 30 cents carfare, took the remainder of an \$80 roll. According to the police, Anderson was intoxicated when he came to the station and could not give a clear account of what happened or a description of the two men.

Rounding up alleged anarchists and it is stated in police circles that 1700 men suspected of being members of anarchist organizations will be deported.

Diamond SQUEEGRE TREAD Tires

400 Tires to Choose from - You Must select One

Obviously you can't compare the prices and relative merits of them all.

Only a corporation, operating scores of cars, can afford to pay a man to do that. But there's your "tip"! If you can't study, and they can, reap the benefit of their investigation.

If you learn that scores of companies in Chicago, New York, Pittsburgh, Atlanta and San Francisco, use only Diamonds—that taxi companies in New York, Philadelphia, Pittsburgh, Washington and Portland, Ore., average over 5,000 miles on Diamonds steadily—

Then you have positive proof that these business men are convinced that Diamonds are the most economical tires they can buy—

That you can "Cut Your Tire Upkeep with a Diamond."

Woman's Coat Is Taken by Burglar

To get his wife's clothes, many a man has worried and worked overtime, but here is a burglar who solved the problem of how to get his wife a new coat, and got away with it. George Lochner of 1517 Kirkham street reported to the police this morning that some one entered his home last night through a front window and, searching the house, walked away with a new blue broadcloth coat, the property of Mrs. Lochner.

BABY FOUND INJURED.
Three-year-old Gerardo Villagran, living at 1222 Third street, was picked up last night by the police at Third and Linden streets. He was sitting on the curbstone with blood running from a wound on his head. The police called the ambulance and took him to the Emergency hospital, where he told the doctors some strange boy threw a rock and hit him.

DYNAMITE UNDER SHOP MEN'S CAR

LAWRENCE, Mass., May 8.—One man was seriously hurt and the lives of forty others were endangered early today when an attempt was made to wreck a car on the Haverhill-Lawrence line of the Massachusetts Northeastern Railway Company carrying workers to the factories.

Two sticks of dynamite were placed under the rails and when the car wheels hit one of them it exploded, shattering all of the windows on one side and cutting one of the rails in two.

Blown to Death by Blast From Oil Well

FULLERTON, Cal., May 8.—H. H. Hammer, a tool dresser employed at the new Chapman oil well near here, met death today when his body was blown half way up the derrick by a sudden blast of oil and gas from the well. The well had been sanding, and workmen were endeavoring to

FORGET TO TELL FRIENDS PLANS FOR MARRIAGE

SAN FRANCISCO, May 8.—When Miss Josephine Wall and Gino Severi, violinist and concert master, decided to celebrate a wedding yesterday, they looked about for a place where flowers decked the countryside. They decided that San Rafael was ideal. In their haste they forgot to tell their plans and a telegram last night reached the bride's parents, Mr. and Mrs. R. T. Wall, 1000 Bush street, announcing briefly, "We are married."

When Severi came from his birthplace, Cesna, Italy, eight years ago, he elected to become an American citizen. Under Chevalier Raffaele Pronali, in the Rosini conservatory, he had studied the violin for eight years. Later he was a pupil of Maestro Pietro Mascagni. At present Severi is musical director in the Imperial theater.

After a honeymoon through Southern California, Severi and his bride will return to San Francisco to explain to their friends why they were not taken into the secret.

restore it to operation. It blew out suddenly and Hammer was caught by the escaping pressure. He was dead when fellow workmen reached him.

NEW SCHEDULE OF INSURANCE FOR SCHOOLS

Complete abolition of the old "log rolling" system of placing fire insurance on Oakland's schools, and by which members of the board of education had an important item of patronage in being able to distribute policies to their friends among agents, was effected today.

A new schedule in which every insurance agent in the city is listed, and every bona fide insurance man is apportioned a share of school insurance, is now in effect. The policies totaling \$1,044,500 have been divided among 122 agents, whereas in the old "patronage" system, only fifty agents received the business.

The schedule was worked out by the board of education, and details completed with the placing of the insurance by Vernon P. Irwin, insurance clerk of the board. The insurance to be placed was divided by the number of agents, each being entitled to \$10,195 worth. Some agents, who still hold policies under the old system, received none of this, but those who had less than the \$10,195 received enough in part to bring their share up to the sum.

The board prepared the agent's list by a public call for proposals to take insurance by bona fide agents. When the complete and complete name was investigated, only agents with whom insurance and real estate is a regular business being allowed to remain. Several scores of applicants were rejected on the ground of being "dummies" or "dummies" for one Elmhurst insurance man.

Following these complaints the new schedule was proposed and finally worked out. Insurance under it will be all apportioned this week.

Tribune Baby Film Is Popular Feature

The pictures of groups of 3 and 4 in the Oakland Tribune Motion Picture Baby Exposition are furnishing interesting entertainment and much amusement at the American theater this week. While none of the performers in the novel film production are stars of recognized ability, still they appear upon the screen as many of the highest-salaried heroes and heroines of the silent drama. Several very humorous incidents were recorded while groups 3 and 4 were being filmed.

These pictures will be exhibited at the American at every afternoon and evening performance the remainder of the week commencing Sunday, and continuing for two days thereafter groups 5 and 6 will be presented.

Awarded \$770 From Man Whom He Slewed

SAN FRANCISCO, May 8.—Having killed Edward Kelleher, most notorious of the "dumb" boys, today was awarded \$770 from the dead man's estate by Judge Graham in the probate department.

SHE IS PICTURE OF HEALTH NOW

Little Jean Snell Suffered Day and Night for Years—Like Different Child Now.

"My little daughter Jean has gained ten pounds on Tambe and now she's the picture of health," said Jim Snell, well known every day truck driver of Haight, Tenn.

"When Jean was only seven years old," continued Mr. Snell, "she was taken with something like nervous stomach trouble, and there wasn't a day or night she didn't suffer, until we got Tambe for her, and she's now fifteen years old. Her stomach was in such a bad condition that she couldn't eat any kind of meat or vegetable, and she couldn't sleep at all. She couldn't sleep at all, and she couldn't eat any kind of meat or vegetable, and she couldn't sleep at all. She couldn't sleep at all, and she couldn't eat any kind of meat or vegetable, and she couldn't sleep at all."

"After hearing of some of the good work Tambe was doing, we got some for Jean, and it has done wonders for her. She actually looks and acts like a different child, and she's taken only two bottles and the medicine. She's now eating everything she wants, even such things as beans and other vegetables, and meats of all kinds. Why, she ate corn for dinner yesterday, and it was the first time in eight years she dared taste corn, and she calls herself 'corn' that's cooked with vegetables. She's not nervous nor ill now, and sleeps like a baby, and we never hear anything out of her from the time she goes to bed until she gets up in the morning. Her skin has cleared up and her cheeks look fresh and rosy. You just look at her and tell she's enjoying good health."

Tambe is sold in San Francisco and Oakland by The Great Drug Company stores.—Advertisement.

Urges Rail Issue on Republican Party

CHICAGO, May 8.—Former President Taft, speaking in Chicago before the Hamilton Club, urged the Republican party to make an issue of the return of the railroads to private ownership. Fair treatment of the new labor class, he said, should be another issue. He advised the club's Republican membership that the confirmation of the League of Nations and peace treaty should not be withheld because confirmation might possibly add to President Wilson's prestige.

Marine Celebration Planned in London

LONDON, May 8.—With pageantry and music London is planning to honor the war work of the British mercantile marine July 13. There is to be a procession on the Thames, from Blackfriars to Chelsea bridges, with hundreds of merchant ships' lifeboats decorated with the colors of the various lines represented and manned by sailors who risked their lives during the war. A newly formed League for National and Civic Ceremony is arranging the celebration. The Thames embankment is to be elaborately decorated.

Prince Is Injured While Riding Skis

BERNE, May 8.—Prince Alfonso of Orleans was injured seriously yesterday while skiing near Brun, near Lake Lucerne. He slipped down a snowbank 1000 feet into a gravel pit. The prince was taken to a hospital at Zurich.

Prince Alfonso, who is an infant of Spain, is 33 years old and a son of Prince Antoine of Bourbon-Orleans, Duke of Galliera.

The editors, in these annual outings, have visited nearly every scenic spot in California. Huntington lake is at an elevation of 7900 feet in the heart of the Sierras.

Editors' Outing at Huntington Lake

SACRAMENTO, Cal., May 8.—The California Press association will hold its annual outing during the week beginning June 7, at Huntington lake, the headwaters of the San Joaquin river. State Treasurer Fred W. Richardson, president of the organization, announced today. The members will assemble at Fresno.

The editors, in these annual outings, have visited nearly every scenic spot in California. Huntington lake is at an elevation of 7900 feet in the heart of the Sierras.

DO YOUR FEET EVER TROUBLE YOU?

Perhaps We Can Be of Some Assistance

If you have foot troubles, such as broken arches, painful heels, swelling of the feet, tender joints, bunions, crooked toes, etc., we would suggest that you call and see our expert.

We carry a full line of foot appliances, including arch supports of various kinds, spring arches, foot resters, foot pads, foot levers, the straighteners, bunion shields, etc.

A great many people suffer ailments that can be corrected by proper foot supports and it might be well if you suffer from excessive fatigue to investigate this line of apparatus.

The man in charge of this department at our 13th and Broadway store takes these various discomforts and might be very helpful to you.

A REMARKABLY FINE SHAMPOO

Imported From Russia

Probably the finest shampoo in the world is made in Russia.

We are fortunate in having a supply of this wonderful preparation. It is manufactured by Vladimir Smirnov and imported from Russia by the same people who handle Dier Kiss Perfume.

For 50c you can get a box of this shampoo containing enough for 6 applications. Every one who has used it is very enthusiastic over it, and its wonderful superiority over all other shampoos is most noticeable.

A BIG SPONGE FOR LITTLE MONEY

Here is a wonderful sponge for 50c. We bought a big quantity of them and they are the best for 50c we have seen since long before the war started.

These are genuine sheep's wool sponges, soft and exceedingly desirable in every particular. You'd better get one while the getting is good.

EVER SHARP LEAD PENCILS

STOP! LISTEN! LOOK!

Poison Oak Is Bad This Year

If you are tramping the hills these days you will notice that poison oak is especially abundant. This is probably on account of the frequent rains we had during the winter. The result will be that a great many people are going to be troubled with poison oak unless they forewarn themselves by rubbing their hands and face with Taylor's Poison Oak Lotion. This is the best poison oak remedy this store has ever sold. It comes both in liquid and salve form and can be used as a cure for poison oak as well as a preventive.

It is usually better to consult a physician when you have a severe case of poison oak, but you will find, nevertheless, that Taylor's Poison Oak Lotion is very helpful.

Aunt Elsie's Magazine for the Children

SUES WIFE WHO PREFERS SHOP

SAN FRANCISCO, May 8. — Lieutenant Frank L. Philbrook, U. S. A., is one man who objects to his wife becoming economically independent. In a divorce suit filed yesterday he declares that he is well able to support his wife, Mrs. Irma Philbrook, and has tried to persuade her to give up her commercial pursuits, but that her devotion to her florist shop is greater than her devotion to him. Therefore he prays for a divorce.

Society through Grace Cathedral on January 24, 1917, when the lovely daughter of Mrs. Thomas C. Copeland became the bride of Lieutenant Philbrook, a West Point graduate. He was stationed at Camp Fremont at the time. The bride insisted upon remaining in San Francisco with her mother, but she might pursue her studies rather than assenting to his plea to live in Palo Alto, according to the complaint on file.

Constipated Children Gladly Take

"California Syrup of Figs"

For the Liver and Bowels

TAKES CHARGE OF CLOAK HOUSE

S. A. Weinstock, brother of Mrs. L. Shafran and for several years connected with some of the leading wholesalers and manufacturers of women's cloaks and suits of New York City, has assumed the active management of Shafran's Cloak & Suit House at Fifteenth and Clay streets.

In taking charge of the business Weinstock announces that in every respect the existing reputation of nearly twenty years for honest merchandise at popular prices will be carefully maintained, but a much more aggressive sales policy will be inaugurated. In this respect he said:

"Oakland is growing far too rapidly for the merchants of the city to keep pace with this growth if they depend entirely on their established trade. There are new people coming to live in Oakland every day, people to whom one store is just about the same as another until they become acquainted with the stock carried, the prices asked and the service given. The store which attracts the attention of these new people first, pleases them and cultivates their patronage is the one which will get the business."

"The store depending entirely on re-sales to old customers is at a standstill. The store which is getting acquainted with the newcomers, going after the trade by aggressive sales and merchandising effort, backing this effort with stylish, up-to-the-minute merchandise, is the one that is abreast of the city's progress and is making the most of its opportunity."

Weinstock will immediately hold a big reorganization sale, preparatory to installing a complete new stock of the latest and smartest merchandise. He has already established connections with some of the leading makers of women's garments in New York City.

Immediately following the sale the store will be enlarged and increased stocks carried in order that the store may keep pace with the rapidly increasing demands of the Eastbay shoppers and the rapid growth of Oakland.

By this arrangement the representatives of the electric trade and their guests will be afforded an opportunity to attend the "over the top" meeting of the Victory Loan workers. It was thought by some persons that the two gatherings might conflict.

F. H. Woodward of the Great Western Power Company sent a telegram to Mr. Shafran extending an invitation to the Westinghouse delegation, the Pittsburgh, Pa., office, which is attending the annual convention at that place, to attend the luncheon here tomorrow, and has been advised of its acceptance.

Wife's Smoking Not Ground or Divorce

SAN FRANCISCO, May 8. — Cigarette smoking by a wife does not amount to extreme cruelty to her husband, any more than smoking by the husband amounts to extreme cruelty to the wife, and does not entitle the husband to a divorce, according to a decision by Judge George A. Surtevant in the case of Leonard Fleckenstein for divorce. The plaintiff said that a year before their separation, causing him great mental suffering, the court said the allegation did not constitute grounds for divorce. Fleckenstein then alleged other forms of cruelty, including curses heaped upon him, and won a decree.

TENOR TO SING.

Carl Anderson, tenor, will appear before the Men's Club of the First Christian Church tomorrow night in a program of songs, accompanied by Walter Lampher Brown, the pianist and composer. Anderson will sing several of his own compositions, in addition to Anderson's numbers, a unique and entertaining program has been arranged.

WORK ON STREETS WILL BE RESUMED

The general street building and improvement program, started with the placing of war restrictions on building materials and halted during the recent political campaign, will begin full force again on May 15, when all the street improvement proposals laid over during the political campaign will come before the city council.

Before the primaries every street proposal was laid over by the council recommendation of the superintendent of streets, and it is generally understood that all proposals will be overruled in conformity with the council policy of carrying much street work in order to furnish employment for soldiers.

The propositions to come up involve important streets in the annexed district. The upper end of Fruitvale avenue is to be improved and the paving of Whittell avenue, paving of Eighteenth, Anson and Eighty-sixth avenues begun. Plans are being rushed for paving of other streets in the annexed district.

Several of the streets planned to be improved started lively protests from property holders objecting to the expense of the work. In many cases residents wanted the work done, while land companies owning the majority of the frontage in really tracts objected.

"Junior Bolshevik"

Wreck Classrooms

SAN FRANCISCO, May 8.—Truant officers with paddles are today seeking members of the "Junior Bolshevik" following the wrecking of three classrooms in a grammar school, in which pianos were damaged, ink spilled and books scattered and an unsuccessful attempt made to set the building afire.

The words "Junior Bolshevik of America" were scratched on the walls and furniture.

Mechanics, Laborers Needed at Navy Yard

The Labor Board at the Mare Island Navy Yard calls attention to the fact that important work at that yard is delayed for want of sufficient number of shipfitters, riveters, holders-on, chippers and caulkers, helper-shipfitters and laborers. The yard is offering unusual inducements in the following particulars: To satisfactory men: Permanency, leave with pay, first aid, hospital and injury pay benefits, standard wage scale scheduled based on the Macy award.

Application blanks and other information, including free physical examination, may be had at the branch office, Labor Board for Mare Island Yard, Room 601 Grant Building, corner Seaview and Market streets, San Francisco.

Death Bares Wide Gulf From Youth

SAN FRANCISCO, May 8.—From the beautiful bells of a Nevada mining camp to a newspaper vendor on this city's streets, extended the varied life of Mrs. Lester Ketrigan. At the age of 79 she died yesterday at the San Francisco hospital victim of burns ten days ago when she accidentally set fire to her clothing at her home at 2027 Powell street. The police records tell of her youthful triumphs in Nevada.

"BLUE BIRD" BUREAU OF THE TRIBUNE

The following questions must be met and answered some way, some how by a brave family of nine.

First. Where to find a house. The rent must not be high, as the income of the bread-winner is meager.

Second. How to furnish it if it can be found—for their entire belongings now consist of two coats and some boxes which are utilized as chairs and tables.

Third. Clothes for the seven children, and clothes for the little stranger soon to come. But why go on? Are there not enough?

Last November the husband and father, who is 42, had influenza. When he had nearly recovered, his family became ill with the same malady and were patients at the auditorium hospital. A charity worker, who became interested in their case, visited the same later and found the mother, weak and ill, at work in her bare rooms, keeping them clean and in order for her numerous family. Also the mother has a husband who is a result of her illness, and has to work altogether too hard to take care of herself or think of the little life to come.

In addition to these troubles, with the father's earnings falling far short of meeting the expenses, their rent was raised. Now they have orders to move—not because the rent has not been paid, but because there are too many children—and the little nine-year-old girl is ill.

They must live, the children must have clothes and a house and furniture must be had.

The solution to their plight may be any number of things, Americanization for them is Italian, welfare work charity, call it what you will, but this, from past experience, believes in the Good Fellows of the bay district, and thinks that they will put this family on its feet. Rooms, furniture, bedding and clothes for this little band of children are needed. There are seven

This little note came in from a little old lady who needed bandages. "My dear Blue Bird: Please accept the thanks of a most appreciative friend for the donations of old white muslin bandages. I was on my last bandage when your bundle arrived and I hope that the senders will be repaid a thousand fold for their kindness."

"A SUFFERER."

Only a day or two left to do your share!

KAHN'S

THE ALWAYS BUSY STORE

We Have Planned an Underpriced Sale of Aprons

Officer Is Killed in Automobile Mishap

LAKEPORT, Cal., May 8.—E.H. Vest, a deputy sheriff, is dead here from injuries suffered when he was struck by an automobile said by the police to have been driven by Lee Bleakmore, a rancher. Vest had been stationed as a guard on a landing field used by aviators in an exhibition in connection with the Victory Liberty Loan campaign.

75¢ FRIDAY

FRIDAY AS USUAL BARGAIN DAY

A splendid lot of choice items throughout the house carefully selected for Friday's One-Day's Selling. Ordinarily the original prices are below standard. Know then how you must profit on selected merchandise deeply underpriced. For obvious reasons we reserve the right to limit quantities.

THURSDAY, MAY 8, 1919

MAKE PEACE.

Two more days remain for the purchase of Victory Loan Bonds.

The treaty to be imposed upon Germany has been delivered to the representatives of that government. A summary of the conditions are published today.

It is a strong, severe treaty, dictated by victorious powers. It preserves the triumph which the soldiers of the United States won on the battlefield. It is a record that will last as long as time of what the American army accomplished and aided in accomplishing.

Over a million of our troops are still in Europe. They are a guarantee that the peace treaty will be signed. They are the clinching argument of the United States and its allies.

They and the government need your support through the subscription to the Victory Loan. Give it. Go over the top again. Tell the enemy you are still with the men over there and will not take "No" for an answer.

Finish the job. Help to make peace. You rejoiced when the armistice was signed, cheered when soldiers came home. Now something more than lip service is required. Give it. It will not hurt.

THEY SHOULD NOT QUIT.

It is to be hoped that the ugly charges of graft and corruption that have been aired in and exchanged between the offices of the Commissioner of Public Health and Safety and the District Attorney will not be forgotten, now that the municipal election is over. That would give the public the impression that they were made solely as a part of political intrigue, which would be most unfortunate for the officials concerned.

The allegations which have been made are of too serious a nature to ignore. It cannot be assumed that they would have been made unless supported by a reasonable belief and knowledge that they were true, even though they might have served political motives. The city has been scandalized and injured too much by selfish political maneuvers to permit these latest charges of graft to drop without the most thorough, and an entirely honest, investigation.

District Attorney Decoto, Commissioner Morse and Captain Petersen have a public duty to perform. It is to bring grafting and corrupt officials to just punishment. No other matter should be considered until this duty is discharged.

The Oregon decision which was unfavorable to the prohibition referendum has been discussed as inimical to the referendum in general, which has been considered a strange reversal, as Oregon was the original radical referendum State. It is to be said that the decision does not attack the referendum principle, but holds that referendum as to a proposed amendment to the Constitution of the United States is not constitutional. Oregonians may be somewhat surprised at this turn for it has been said of them that they had an idea they could vote on everything but the choice of wives. The referendum was taken by them to embrace every law or question. The decision is the first one on the national prohibition question that has been rendered by a State court of last resort, and is bound to be regarded more or less as a precedent.

It seems to be the purpose of the Roosevelt Memorial Association to make the memorials to the great American of greater cost than was at first generally understood. These memorials, as tentatively agreed upon, are three in number—a monument at Washington, a park at Oyster Bay ultimately to include the Roosevelt homestead, and the establishment of an incorporated society to promote the development and application of distinctive Roosevelt policies. It had been understood that all this could not be realized without considerable funds; but it was not realized that a fund of ten millions was necessary. However, the memorial association has decided on a national drive to raise that amount, and has set the time for October, the week of 20-27.

THE TERMS FOR GERMANY.

Germany heard yesterday the sentence to be imposed upon her as a result of the war she perpetrated and waged against civilization. It is a heavy sentence. After it is published at home there will no longer be any excuse for any German citizen not knowing the war has been lost; that the manner of its prosecution was in violation of civilized law and practices, which so aroused the world that punishment has been pronounced and must be borne.

The complete text of the treaty drafted for accomplishment between the Allies and Germany contains about 80,000 words. An official summary, comprising over 12,000 words, is printed in today's TRIBUNE. The greater part of this summary was also printed in the later editions of yesterday's TRIBUNE, a splendid feat in newspaper publishing that was not equaled by any other newspaper in the San Francisco bay district.

Under the terms of this proposed agreement, Germany is relegated to the rank of a fourth-rate power. Not only must she cede a portion of what was the former German empire, but she must submit to mandates from her present adversaries regarding her governmental activities. A limit is set upon the military and naval force she may maintain—100,000 men for the army and 15,000 men for the navy. The size and character of the naval craft to be allowed her is defined; for example, the largest ship she may possess is a battleship of the third class—a "Deutschland" type of 10,000 tons.

Construction and maintenance of fortifications, military schools, munition works, the manner of enrolling the army and navy personnel, is prescribed by the Allies in the peace agreement.

Under the heading of reparation and safeguards against future attack, Germany must demolish the fortification on Heligoland, at the entrance of the Kiel canal, and on the Baltic seacoast. The Kiel canal, the Rhine and other rivers are to be internationalized. Alsace-Lorraine is ceded back to France forthwith, with several drastic provisions for repairing the injury committed against France by the Prussian dictated treaty of 1871. Public property and holdings of the Hohenzollern family are given to France without compensation.

Territory is ceded Belgium between Luxembourg and Holland. Poland gets 27,000 miles of territory in Silesia and Posen, a zone through East Prussia to Dantzig, which is internationalized and placed under control of the League of Nations. A plebiscite is to be held to determine the wish of the people of Schleswig-Holstein regarding their future affiliations. These provisions are in expiation of Germany's crimes of aggression prior to 1914.

With reference to the offenses committed during the present war, Germany must aid in and pay for the cost of restoration of the devastated regions. France is given control of the Saar basin for a period of fifteen years and absolute ownership of the coal mines of that district; this as compensation for the ruthless destruction of the coal mines in Northern France. Payment and restoration is exacted in case of the pillage, petty thefts, unlawful confiscations, murder of civilians and their unlawful punishment, the maltreatment of Allied prisoners and for other offenses forbidden by the rules of war. Payment must be made for shipping and human lives destroyed by the submarine pirates.

The former German kaiser is arraigned for a supreme offense against international morality and the sanctity of treaties and is to be brought before an international court for trial. Officials of the army and navy guilty of crimes must be surrendered for trial before Allied courts-martial. And as a curious sidelight on the thoroughness of the Ally plans to convince Germany of the infamy of her deeds and the necessity for reformation, it is provided that the astronomical instruments which German troops looted from the Peking government university in 1900 must be restored to China.

These are some of the things which German officials learned yesterday and the knowledge of which soon will be communicated to the German people. They are severe, but not as drastic as they might have been under the principle of exact justice.

The German people are left much which, under the Prussian code of dealing with the weak and helpless, would have been denied them. They are left the opportunity to recreate themselves as an honest, law-abiding, honorable nation; the privilege of repudiating their orgie of savage lust for power; time to make amends. In due course the German people will understand and appreciate this.

That there will be loud and bitter protest against the agreement is certain. The government of Germany is still controlled in the main by reactionary, reprobate apologists for kaiserdom. The head of the delegation at Versailles is a Prussian junker, Von Brockdorff-Rantzau, one of the diplomatic secondhands who during the war carried on in foreign countries the work of the Prussian military high command. He operated at Stockholm and was a colleague of the assassin Von Luxburg, of "spurious venet" notoriety, and of Count Von Bernstorff. He and his like will not approve the treaty, but they will have to sign it. Allied armies will occupy Germany until this treaty is something more than a scrap of paper.

NOTES and COMMENT

In the light of Italy's return to the peace conference, the busy with-drawn, excited demonstrations of American and other hysterics look foolish. Which suggests that a certain firmness at Paris proved to be a good thing.

The story that was attempted by the scare that the British are conspiring to secure a monopoly of American oil fields has been denounced by a United States army officer who has to do with the oil supply. It was a political bogie and not very artistically camouflaged at that.

The Retail Liquor Dealers' Association, in session at Atlantic City, is confident that the country will remain wet at least another year from January 15, 1920. The despatch says its members "speak for themselves, but not for the distillers or wholesalers." Which is rather mysterious, as their interests are pretty well allied.

Hurley's invitation to the ship-builders to come East for conference should not be dismissing. The shipping board has always proceeded in a way of its own.

A bill affecting community property, but which has never been passed, has reached the governor for his signature. Another bill on the same subject, but of entirely different purport had been passed. It may have been an honest mistake, but as like is not there will be doubts.

Marshal Foch wants it to be doubly sure that France this time. He seems to think it time to definitely stop invasions by the Huns, as they have occurred at intervals for more than a thousand years.

As to the Atlantic flight, it cannot be said yet that they're off. It is to be a very unusual journey, and there is a pronounced tendency to see that everything is as light as it can be made. And then, the weather is inconsiderate.

Such a thing as nations going on strike is new, but the action of China, Siam, Cuba, Guatemala, Nicaragua, Haiti, Panama, Liberia and Honduras, when they refused to go to Versailles except on terms of full equality with the others, amounted to pretty near that. The big powers granted the refusal, but the strikers won out.

Erudition from the Fresno Mirror: "The owner of a 'hot dog' counter has been compelled by the city trustees to change his place and make such changes as may be necessary to keep the fumes from reaching the street. Do you know how hot dogs are made? Do you know how hot dogs are made? Do you know how hot dogs are made?"

The Stockton Record falls into a train of thought. "Nobody can do up a package these days so it won't look like a bomb if one happens to be thinking about bombs and feeling kind of nervous. Even a scrapbook that arrived at United States Senator Johnson's office was mistaken by the speed force for one of the missiles. Lucky it is not Christmas. But, alas, they say in Shakespeare: 'Wouldn't that be one way of side-stepping the deadly Christmas cheer?'"

SPIRIT OF THE STATE PRESS.

Governor Stephens has signed the motor vehicle act, simplifying the transfer of cars, and increasing the speed limit on open highways from 30 to 35 miles an hour. The registration year will date from February 1. Headlight regulations are made more stringent, safety signals are provided, and the driving of a machine by an intoxicated person or a drug addict constitutes a felony, punishable by imprisonment from six months to three years, or a fine of \$500 to \$5000. The use of a car without the owner's permission is punishable by imprisonment from one to five years.—Sacramento Union.

Several hundred people turned out Saturday evening for one of the smartest social events of the season, when the White Oil girls of the Standard Oil Company gave their big dance at Fairmont park. The White Oil girls in costume acted as hostesses and Jack Crow's orchestra filled the hall with jazy strains, to which the crowds danced all evening.—Richmond News.

The people of California farm 12,000 acres of land, owned by the state. The major domo is the state board of control, of its chairman, Marshall DeMat. The agricultural foremen are the heads of these institutions whose holdings are of sufficient size to be called farms. One of the most successful is at Napa.—Sacramento Union.

THE NIGHT NEVER FORGOTTEN.

The nymphs of woodland with shadows at play; Each dew-droplet gleam-blade a glinting lance; Gay leaves with zephyrs coquettishly dance To rippling of waters in roundelay Under the starlight, a silvery ray; And I in the spell of your dewy glance With you in the garden of that old manse, Such was the setting that night in May; That wondrous night and that mystic hour; When, touching your tresses, I breathed your name And you tenderly listened, your head bowed low, While, May-time and moon and rose in flower, I plead for your love, with my soul aflame, In that mirroring moonlight long ago. CLAUDIUS THAYER. Berkeley, May, 1919.

EXPLORING THE KAHMAI REGION

WASHINGTON, May 2.—Word has been received by the National Geographic Society, that the sixth expedition of the society, headed by Professor Robert E. Griggs, to explore the now famous Valley of Ten Thousand Smokes, has arrived at Kodiak island, Alaska, opposite the extensive volcanic area about Mt. Katmai.

Professor Griggs headed the society's first expedition to the Katmai district in 1915. The following year he discovered the volcanic area there, which has been called one of the greatest, if not the greatest, natural wonders of the world.

This year the party in pages charts a petrographer, a zoologist, other scientific men and motion picture photographers. Thus, the volcanic fields will be studied from many scientific angles, and also will be recorded on negative and film so its wonders and beauties may be disclosed to members of the society.

Effort will be made this summer to determine whether helium, the non-inflammable gas which is expected to revolutionize the science of ballooning, is to be found about Katmai. But that is only one of the fascinating problems that this awe-inspiring phenomenon holds out to science. The processes of nature in the creation of the earth's surface, may be studied there as nowhere else on the globe.

The personnel of this year's expedition follows: Robert E. Griggs, director; Lucius G. Folsom, assistant to director; Emory C. Kelly, motion picture photographer; Frank J. Jones, photographer; E. T. Allen, chemist; C. N. Fechner, petrologist; J. S. Hine, zoologist; Jasper D. Sygne, botanist; Paul R. Hagelberger, topographer; E. G. Zies, assistant chemist; and H. B. Basinger, assistant zoologist, and H. N. Wallace, Harry E. Jacobs, A. P. Miller, Julius Stone Jr., William L. Fleming, Charles Yeri, Ralph Hagelberger and Richard E. Heit, assistants.

"SITTY LITTLE CHILDREN TO COME."

Detroit is to have a \$600,000 apartment house in which the childless family will not even have a look-in. This towering structure is to be a means for the oppressed, a haven for those who have fulfilled destiny, but have no place to go. Childhood is to be transformed into a golden age in which the whimpering query, "Where do we move today, mother?" will never be heard. On the roof of this fortress of domestic rights there is to be a great children's playground, far from the wheels of motor cars and the dirt of the street. The City of the Straits has started something which, presently, may be reflected in comic returns. Putting a premium on children, and making them, as it were, tickets of admission into apartment buildings, is something rather new in this cruel world. But it is decidedly along the right lines.

What is going TO-NIGHT.

Musk and Dancer play, Twentieth Century clubhouse, Berkeley. Knights Templar hold annual ball, Hotel Oakland. Robert MacLure gives concert, Bell hall. New England Association gave luncheon, Starr King hall. Daughters of the Confederacy annual convention. Pupils—Eyes of Youth. Ye Liberty—Kohl and Dill. Patience—A Finesse Reverie. HEALTH and HADINESS

How You May Rid Yourself of Pimples and Blackheads

BY DR. LEONARD K. HIRSHBERG
 A. B., M. A., M. D.
 (Johns Hopkins University.)

A pimple on your face is there because you are inattentive to your rations, baths and outdoor life. The acne bacillus or pus germ thrives in darkness, grease, fatty food, dirt and dust.

Blackheads are usually the predecessors of pimples. Pimples are infected germ nests of bacteria. The skin of the face, as a rule, becomes oily because of excess fat in food. The greasy skin attracts dirt particles and microbes from water, fingers and the air. These clog up the pores and become blackheads. They become pimples after the germs begin to grow. After the blackheads have formed you probably employ your fingers to squeeze them out. Thus you inflame the tiny fibers about the area and give the staphylococcus albus, or pus-producing germ, a suitable soil for growth. You then have a fully developed "festered pimple."

The food and oil of the skin, in order to work normally and prevent blemishes, must not receive an over-supply of fat from such food as hash, fried meats, sausages, veal, pork, bacon, ham or game. Unskimmed soup is too fatty and also should be avoided. Heavy vegetables such as cabbage, turnips, beets, are also to be avoided. Coffee, tea, cocoa and liquors are similarly to be avoided because of their interference with normal growth.

Plenty of water, an abundance of sleep and outdoor life helps to promote the general health and act more efficiently than any medicine in the prevention of pimples and blackheads.

A simple soap such as castile or any other neutral soap should be rubbed into the pores with an up-and-down movement for the profile, a cross-wise movement for the chin, and a rotary movement for the cheeks. The soap should be well worked into a lather or else more particles will stick to the sebaceous glands to cause irritation.

Plenty of water should be used, and the face washed perfectly clean and dried with a rough towel. If the face has been washed with warm water, rinse it gradually first with lukewarm water and then cold water. This will stimulate the abundant flow of the scarlet stream and add to the rosiness of the facial skin.

If you must press upon the pimple or blackhead after washing the face, it is well to rub the skin first with a good cold cream. This will temporarily enlarge the pores and thus loosen the particles of oil. After this operation soap and water can again be used to advantage, a piece of ice can be employed to close the skin and the finishing touch may be put on with a bit of talcum powder.

If this simple method of treating pimples and blackheads brings you no relief, have your physician diagnose your ailment.

50 ESPIONAGE ACT VIOLATORS WIN CLEMENCY

BY ASSOCIATED PRESS.

LEASING WIRE TO TRIBUNE.

WASHINGTON, May 8.—Fifty more men convicted during the war for violation of the espionage act have been granted clemency by President Wilson on recommendation of Attorney-General Palmer in pursuance of the policy of being lenient to those who have served a year or more in prison and whose sentences in the stress of war times now appear excessive.

Clemency was granted, with the district where they were convicted, the names and the sentences in the stress of war times now appear excessive.

John Kiderow, Northern California, ten years, reduced to three years.

L. Jenkins, Northern California, two years, one year and one day.

M. M. Strode, Arizona, two years, time served.

Charles Spitzer, Hawaii, sixteen years, three years.

E. W. Fitzwater, Northern California, five years, time served.

Walter Shatt, Northern California, two years, one year and one day.

William Raymond, Northern California, fifteen months, to September 1, 1919.

William T. Walker, New Mexico, two years, one year and one day.

W. H. Fidler, Arizona, five years, time served.

George Simpson, Arizona, one year, nine months.

Carl Schneider, Northern California, five years, one year and one day.

Joseph Nichols, Arizona, eighteen months, one year and one day.

Payton J. Burns, Arizona, two years, one year and one day.

George L. Riebel, Northern California, five years, one year and one day.

Minnie Giebel, Northern California, one year, time served.

Coast Shipyards Unite in Fight Permanence in Industry Demanded Northwest Invited to Conference

Rather than act independently, shipbuilders of the bay district and Southern California have decided to invite Northwest builders into conference before appointing the committee which will soon go to Washington to wait upon Edward N. Hurley, chairman of the United States Shipping Board, to seek assurances that Federal contracts will not be cancelled.

The decision was reached yesterday afternoon at the conference held in the offices of Harrison S. Robinson at the First National Bank building. It was attended by representatives of the Bethlehem Shipbuilding Corporation, the Moore Shipbuilding Company, Union Construction Company, Hanlon Drydock and Shipbuilding Company, Schaw-Batcher Company Shipworks, Southwestern Shipbuilding Company and Craig Shipbuilding Company.

"NO DRASTIC STEPS" PLANNED.
Positive declaration that no drastic steps in shipbuilding cancellations are contemplated was telegraphed to the local branch of the United States Shipping Board from Philadelphia headquarters today.

The telegram urged Captain A. F. Pillsbury, district manager, to do everything possible to assure both the builders and workmen that they have no cause for alarm over the cancellations, which are to be followed by contract for new types of ships.

PLAN COAST CONFERENCE.
During the meeting yesterday George A. Ames, chairman of the shipbuilders' sent telegrams to the Northwest Shipyards' Association, which includes the steel shipyards in Washington and Oregon, inviting their immediate presence at San Francisco for a Pacific Coast conference.

Immediately after this conference, the committee of shipbuilders will leave for Washington to confer with Hurley in accordance with his invitation. It is possible that this committee will consist of one representative from each of the yards, but the exact personnel will not be determined until the meeting of all Pacific Coast representatives.

The following telegram was sent to Hurley:
"Oakland, California, May 7, 1919.
Mr. Edward N. Hurley.

"The people here, including the shipbuilders, understand from your telegram that no changes in programs will be recommended or approved by you which would cause any suspension of labor or operations in our shipyards and that the yards are to continue to proceed with the performance of all uncancelled contracts. This assurance from you has received the widest publicity and has produced a most agreeable reaction everywhere and has revived subscriptions to the Liberty Bonds among the shipyard workers and others."

"CALIFORNIA COMMITTEE ON SHIPBUILDING."
By PHIL TELLETT, president.
"By HARRISON S. ROBINSON, Secretary."

DEMAND STEADY WORK.
At their meeting, the shipbuilders laid down the following as the principles upon which they must stand and fight if necessary:

1. The work on the yards must continue without interruption and steady work must be continuously provided for the men there employed.

2. The yards must have the kind of contracts which stabilize and make permanent the shipbuilding industry on the coast.

3. No needless waste of material on hand for contracts in course of performance should be permitted.

WATCH LOCAL CONVENTIONS.
Attention was called to the tremendous effect upon the success of the shipbuilding program in the West of whatever actions are taken at the meetings of the Pacific Coast Metals Trade District Council and the Pacific Coast District Council of Boiler-makers now holding conventions in Oakland. Questions of hours and wages, which may have a decisive effect upon the attitude of Congress, are there under discussion.

GIRL TO TELL OF TRAGEDIES IN HER HOME

SAN FRANCISCO, May 8.—Peggy Cole, a beautiful woman of 32 years with great blue eyes and blonde hair, has nothing to hide from the Los Angeles police. She will quit the St. Francis Hotel soon and go south to tell all she knows of Lewis Penney Ramsey, of Teresa Hoover, her mulatto maid, of the shooting of the maid by Ramsey, of Ramsey's suicide.

Two of the best years of her life, she says, she gave to Ramsey, seeking to reform him of his drunkenness and falling time and again. Ramsey shot the maid through the door of Miss Cole's bungalow, supposing Miss Cole herself was his target. Discovering his mistake he carried the maid to a bed and kept her there, guarding the place for two days against the possibility of her mistress's return.

Two of the five shots he fired at the maid punctured her lungs. She was seized with pneumonia. In the midst of her delirium Ramsey shot and killed himself. The delirious maid and the dead body of her assistant were found soon after by the police. Peggy Cole had disappeared. She was located at the St. Francis yesterday.

Peggy Cole says she met Ramsey two years ago and became engaged to him. Discovering his proclivity for liquor she broke the engagement only to renew it at his pleading. Her mother and she took the house of tragedy at Ocean Park Heights, Ramsey a studio next door. Ramsey's attention finally drove her nearly to a nervous breakdown, Peggy Cole says. Ultimately his uncle placed him in a sanatorium, but he secured his freedom not long after and his annoyance of her was renewed. She had been away from home for some days before the tragedy and knew no more of that than the police.

Before Miss Wrenthorn was allowed to leave the Union station she was forced to submit to a medical examination. Unless a negative culture is taken, she will be placed in quarantine until all evidences of diphtheria germs are gone.

MAY POSTPONE WEDDING.
Miss Wrenthorn's wedding to Governor Harrison is planned for May 15. Should the fail to have lost all evidences of the supposed germs by that time, a postponement of her wedding will be necessary unless the ceremony is performed with only the contracting parties and the necessary witnesses in attendance.

Complications in the tangled romance of the attractive college girl were added through the action of Dr. W. H. Kellogg, secretary of the State Board of Health, to whom the case was presented by Dr. J. J. Bolton, Berkeley health officer. The former immediately communicated with Washington, requesting that Miss Wrenthorn be held for medical examination.

MOTHER NOT ON SHIP LIST.
Mrs. Clarence C. Wrenthorn and a younger daughter, Margaret, who also broke quarantine rules, are supposed to be on their way to their home in Manila, but an investigation of passenger lists by the Berkeley officials failed to disclose their names.

HEALTH TEST MAY OBSTRUCT WEDDING PLAN

BERKELEY, May 8.—New complications arose today in the stormy romance of 18-year-old Elizabeth Wrenthorn, sophomore student at the University of California, who defied parental wishes and left for the East last week to become the bride of Francis Burton Harrison, governor-general of the Philippine Islands.

Whether Miss Wrenthorn will become the bride of the wealthy government official at the wedding planned for the home of her fiancé's mother in Washington, D. C., or at some tiny ceremony depends upon some tiny germs which she is supposed to have carried East with her from Berkeley.

FORGET HEALTH TESTS.
In her eagerness to leave for the East to join her fiancé, Miss Wrenthorn, who was one of 21 diphtheria carriers discovered at the University of California, forgot to comply with Berkeley health regulations and have a required negative culture taken.

When she alighted from the train in the national capital she found members of Washington's health department waiting to greet her at the station.

Before Miss Wrenthorn was allowed to leave the Union station she was forced to submit to a medical examination. Unless a negative culture is taken, she will be placed in quarantine until all evidences of diphtheria germs are gone.

MAY POSTPONE WEDDING.
Miss Wrenthorn's wedding to Governor Harrison is planned for May 15. Should the fail to have lost all evidences of the supposed germs by that time, a postponement of her wedding will be necessary unless the ceremony is performed with only the contracting parties and the necessary witnesses in attendance.

Complications in the tangled romance of the attractive college girl were added through the action of Dr. W. H. Kellogg, secretary of the State Board of Health, to whom the case was presented by Dr. J. J. Bolton, Berkeley health officer. The former immediately communicated with Washington, requesting that Miss Wrenthorn be held for medical examination.

LITTLE CITIZENS AIDING BONDS

The children of the Park Boulevard playground are to do "their bit" toward aiding the Victory Loan and wake people up, by having an interesting, enthusiastic neighborhood parade Friday afternoon, May 3, after school, in the East Oakland district. Costumes are to be fashioned as clowns, sailors and soldiers and each child is to be supplied with a horn, drum or some noise making instrument to arouse the neighbors and attract attention to their cause. "Buy and Be in the Swim, Buy a Victory Bond," "Don't Be a Sucker," "Wake Up, Folks," "And in our Victorious Victory With a Victory Bond," etc. In the evening a number of children from about the city are to take part in a demonstration of "stunts" at the city hall plaza between 7 and 8 and again the Park Boulevard children are to contribute their share. Oliver Hyde, Oakland's youngest and most talented little four-minute speaker, is to give a four-minute talk on the Victory Bond, as the Park Boulevard "stunt," while a group of other boys are to take part in another one, which is a secret, until Friday night. So come out, folks, see the fun and aid and encourage the children in their patriotic endeavors.

TEA AT CHURCH.
RICHMOND, May 8.—A tea was given by the Ladies' Aid of the First Baptist church yesterday. A good sized sum was raised for church purposes. Those on the program were Mrs. Clyde Parker, Mrs. Crier, Mrs. Kinney, Mrs. Stanton, Ruby Trivette and Mrs. Bassett.

SIX CITIES IN DISTRICT OVER

SAN FRANCISCO, May 8.—Six cities in the Twelfth Federal Reserve district had reported over-subscribing victory loan up to early today, according to Liberty Loan headquarters. They are Portland, Spokane, Alameda, Eugene, Bakerfield and Vallejo. Standing in percentages of quotas of other cities reported were: Berkeley, 88 per cent; Santa Cruz, 80; San Diego, 75; Stockton, 57; Seattle, 55; Oakland, 53; Salt Lake, 52; San Jose, 51; Fresno, 50; Tacoma, 47; Oden, 32; San Francisco, 25.05; and Los Angeles, 25.38.

A Range Made in California to Suit the California Climate

It took a California company to study the peculiar conditions of this climate—and then the ideal range was made. Here it is—you can buy it in Oakland only at Breuner's.

This Combination Wedgewood

Gas Range and Kitchen Heater

provides a high-grade gas range for general purposes, which is what most women prefer. Added to it is a two-plate cast-iron firebox for burning wood or coal on chilly mornings or evenings. This supplies a handy way of disposing of papers and garbage.

\$10 Down—\$7.50 Monthly
During this week your old gas, wood or coal range will be worth \$5.00 to \$10.00 on any new range.

Kitchenware Specials This Week

89c each

To help popularize gas week four gray enamelware cooking utensils have been specially priced. 14-quart dishpans, 6-quart tea kettles, 3-quart coffee pots, 1½-quart rice boilers, guaranteed acid-proof.

MAYOR SEEKS RESIGNATIONS OF OFFICIALS

Suggestion was made today by Mayor Davis that members of city boards appointed by former Mayor Mott, who have two of their six-year terms to serve resign, that the mayor may have control of the affairs of the city.

"I think under the circumstances," said the mayor, "the members of the various boards serving under Mott appointments might be resignations, inasmuch as the people in two elections have said unmistakably that they want me to run the city. I might appoint most of them right back again, but they would then owe allegiance to me and not to the predecessor, who is out of public life."

Davis's suggestion is aimed at several members of park, playground and civil service boards, who were appointed four years ago. On the park board the remaining Mott appointees are Walter D. Cole and Dr. S. H. Bureau; on the civil service board they are Roscoe Jones, whose term expires in June, and J. H. Fisher, who still has two years to serve. Three members of the playground board are also Mott appointees with two years to serve.

The mayor will make a formal statement tomorrow.

MRS. ANTOINETTE STEARNS, left, and MRS. W. B. PRESSLEY are two of the delegates attending the convention in this city of the United Daughters of the Confederacy.

DAVIS CHAIR, WAR RELIC, IS STILL SOUGHT

The old chair which Jefferson Davis occupied in the United States Senate and which the United Daughters of the Confederacy covet as a historical relic, lent a thrill to the second day of the nineteenth annual convention of the California division meeting in Hotel Oakland. For more than a year the state organization and the national association, numbering upward of 100,000 members, have made a strenuous effort to acquire the piece of furniture, which is in the possession of Thurlow Mullin of San Jose, who refuses to part with it. Delegations and communications have not been refused from the possessor of the relic. Although the special committee appointed at the last convention offered a report of failure, California division women determined this morning that they would continue the campaign for ownership until the historical chair became theirs.

Side by side with their work for the care of Confederate veterans, the 1919-1920 hero fund for the education of the men who had fought under the Stars and Stripes in the present war was considered. The work for the assistance of widows of southern volunteers was effected by the scholarship fund, which is providing education for the daughters of southern families. Donations were offered equally to the men in gray and the boys in brown whose gold stars decorated the service flags in almost every chapter in the state.

What the United Daughters of the Confederacy in California, which is comprised on behalf of the Liberty Loan campaign, American Red Cross Society, Navy League, foreign relief, entertainment of service men, influenza epidemic, during which several of their own members who had volunteered as nurses had died, endowment of hospital beds and burial of Confederate veterans was told in detail today by the president of the 19 chapters in the state.

A toast to "Our Southern President, Woodrow Wilson" in 1912 Columbus sailed across the ocean to prove the world was round; in 1919 Woodrow Wilson sailed across the ocean to prove the world was square" was greeted with cheers.

Mrs. Andrew M. Davis, who has filled the executive chair since the past two years, is retiring. The presidency, according to precedent, will go to Southern California. The election and naming of the place of the 1920 convention takes place before the adjournment late this afternoon.

The original "Dixie," "The Girl I Left Behind Me" and other songs of the Civil war days were sung this afternoon by Mrs. James Edward Mack, daughter of Colonel Thomas Jefferson Patton, a southern officer. A group of southern melodies sung by Mrs. Joe Miller opened the morning session. Readings by Mrs. Tomlinson Wise of San Francisco, members of the stringed sextet of the University of California and duets by Miss Theresa Sherwood and Miss Lilla Sherwood varied the program of convention work today.

The "historical event" will conclude the two-day convention tonight. The speakers will be Dr. H. E. Bolton of the history department of the University of California and Rev. Josiah Sibley of San Francisco. Awards of medals will be made.

Mrs. Collins' Will Admitted to Probate

The will of Mrs. Anna Collins, bequeathing the bulk of her \$100,000 estate to a daughter in Los Angeles, was admitted to probate today by Judge L. S. Church. The estate was left to her by her brother, James M. Halsted, four years ago. The executor of Halsted's estate fought for three years to retain the money in the estate instead of paying it over to Mrs. Collins. The decision in her favor was received only a short time before her death.

Letters of administration in the estate of Mrs. Mary Dieke, whose family conducted one of the first hotels in Oakland, were partitioned today by Mrs. Marie Hughes, a daughter. The estate consists of Oakland real property. Another daughter, Mrs. Caroline Wilson, a noted beauty, is living in Virginia. The hotel owned by the Diekes was situated at East Twelfth street and Thirteenth avenue. The will leaves the estate to the children.

Husband Accused of Nagging, Cruelty

Nagging, idleness, profligacy and cruelty are alleged in the divorce complaint of Mrs. Ethel Lamb Koenig against A. H. Koenig. She charges that he knocked her across the room, that he designedly pestered her and made her life miserable, and that he never supported her. There is one child of the marriage and two adopted, of whom she asks custody.

Mrs. Ella J. Lease alleges that her husband, Benjamin H. Lease, whom she is suing for divorce, allowed her to pay her own expenses on vacation trips, told her she was ignorant and neglected to provide for her wants.

The divorce complaint of Mrs. Myrtle Dean against Arthur L. Dean was placed on the secret file today.

Sixty-Day Sentence for Stealing Shoes

West May confessed to Judge Mortimer Smith this morning that he stole a pair of shoes, and was sentenced to sixty days in the county jail for petty larceny. The judge wanted to know if he needed the shoes, but according to the evidence introduced, May sold them.

Relieve Your Indigestion With A Laxative

Dyspeptics know that indigestion is accompanied by constipation, and that until the bowels can be regulated so they will act freely and naturally every day at a stated time, swallowing dyspepsia tablets is of little use.

A great and growing number of sufferers from this trouble find immediate and then permanent relief by the use of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. The laxative herbs act on the bowels and the pepsin and extracts on the digestive tract, forming an exceptionally effective laxative-tonic.

It is a combination that has been found wonderfully helpful in indigestion, constipation, biliousness, headaches, bad breath, belching and gas on the stomach. A small dose is all that is required.

The druggist will refund your money if it fails to do as promised.

Dr. Caldwell's SYRUP PEPsin
The Perfect Laxative

PRICE AS ALWAYS
In spite of greatly increased laboratory costs due to the war, by sacrificing profits and absorbing war taxes we have maintained the price at which this family laxative has been sold by druggists for the past 26 years. Two sizes: 50c and \$1.00.

FREE SAMPLES—If you have never used Dr. Caldwell's Syrup Pepsin send for a free trial bottle to Dr. W. B. Caldwell, 468 Washington St., Monticello, Ill. If there are babies at home, ask for a copy of Dr. Caldwell's book, "The Care of Baby."

CUT THIS OUT

Old English Recipe For Catarrh, Catarrhal Deafness and Head Noises.

If you know of some one who is troubled with Catarrh of the Head, or ordinary catarrh cut out this formula and hand it to them and you will have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for many years have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalants and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear, which frequently results in total deafness, or else the disease may be driven down the air passages toward the lungs, which is equally dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment for catarrh of the head, especially efficacious to sufferers who live under more favorable climate conditions.

Scrub from your drugist 1 ounce of Parment (Double strength). Take this home and add to it 1 pint of water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will effect relief from distressing head noises. Cleared nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parment used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh of the head or is afflicted with hearing noises, should try this treatment. A trial advertisement.

STREET OPENING AGAIN HELD OVER

Opening of East Twelfth street from Twenty-fifth to Twenty-sixth avenues, postponed several times in the past few weeks, came up again before the city council today for another postponement, when Charles A. Boardley appeared, representing the Macdowell Iron Pipe Company, and explained that the factory building extended three feet into the present line of the proposed street. He asked that new proceedings be started clearing the line, on the ground that it would be cheaper to do this than to have a brick and concrete factory. The matter was put over sixty days.

Commissioner W. H. Edwards took occasion to criticize radical opposition to the street opening as voiced through the offices of the Railroad Administration. "It is about time," he said, "that we are not held up any more in making public improvements by petty government officials. The Western Pacific has been a sore of brick wall to this work. William Walker urged that this opening be hurried.

Street work that has been pending for some weeks occupied the attention of the council today. A minor project against the improvement of Bryan and Pacific avenues was overruled, the project being made by M. J. Neilson, who said he thought the residents should erect their money for Victory bonds and not for street improvements. Sewers were ordered installed on Portland avenue. There was no project.

A lively talk between neighbors, based on two sides of the question of improving Mission street, Levee avenue and some connecting links advanced the proceedings. A. J. Shattuck said that the street petition was the work of a few that owned automobiles. Others said that the street was impassable. After hearing arguments pro and con the council laid the matter over for a report from the superintendent of streets and an inspection of the land involved by Mayor Davis.

The nation's pension ordinance, restoring pension rights to full measure as authorized in the recent charter amendment, was finally adopted today. Application of the Oakland-Henrichson Stage Company for a stage line permit was laid over a week.

WOMAN TURNS ON GAS JETS AND DIES

After writing a note and addressing it to "whom it may concern," Mrs. P. L. Donlin, living at 1754 Franklin street, turned on the jets of the gas range and went to bed.

She was found dead this morning by Mrs. J. W. Temple, her landlady. In the note left by the bed she said her husband had left her and could be found with the Foreland & Burke Carnival Company, which plays this week in Martinez. Mrs. Donlin had been ill for two weeks.

Child Fatally Hurt by Attorney's Auto

L. L. Steele of 123 Lake street, the attorney who ran over little Lucille Owen, who died this morning at the city hospital, will be charged with manslaughter and taken before police inspectors this afternoon, according to the statements of W. J. Petersen, captain of police inspectors.

Steele claims the little girl ran out in front of his machine when he was turning the corner at Sixteenth and Thirtieth avenue, and that he was in no way responsible for the accident. She was 2 years old.

TAKES POISON AT MOVIE.
"HAWAII," May 8.—At the conclusion of a remarkably dramatic movie last night an unidentified 16-year-old girl swallowed poison in the presence of several hundred moviegoers, and was believed to be dying here today. The girl refused to make an explanation or give her name.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulfur. Whenever her hair took on that dull, faded, or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulfur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulfur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.—Advertisement.

Firemen Appreciate Tribune's Support

EDWARD THERMAN, the two hundred and fifty-fifth member of the Fire Department of our city, together with their respective wives and children, hereby thank you for the generous assistance you rendered them in behalf of the two-pension ordinance, which was favorably received by the people yesterday.

The Fire Department will render itself worthy of your valuable support. Respectfully,
GEORGE W. MOTTITT,
President.

Fireman Tries to Jump From Ferry

W. M. Dunlap, being at 105 Third street, San Francisco, a marine fireman, 38 years old, who has been out of a job and sick for a month, attempted this afternoon to jump into the bay from an Oakland harbor ferry boat, but was caught by the first mate and as a result the boat touched the pier, sent to the Oakland Emergency Aid.

He was later arrested on a charge of assault and held by the Oakland police.

AS YOUNG AS YOUR KIDNEYS

The secret of youth is ELIMINATION OF POISONS from your body. This done, you can live to be a hundred and enjoy the good things of life with as much pep as you did when in the springtime of youth. Keep your body in good condition, that is the secret. Watch the kidneys. They filter and purify the blood, all of which blood passes through them every three minutes. Keep them clean and in proper working condition and you have nothing to fear. Drive the poisonous wastes and deadly urine need accumulations from your system. Take GOLD MEDAL Haslem Oil Capsules and you will always be in good condition. You will feel strong and vigorous, with steady nerves and elastic muscles. GOLD MEDAL Haslem Oil Capsules are imported direct from the laboratories at Haslem, Holland.

They are a reliable remedy which has been used by the sturdy Dutch for over 200 years, and has helped them to develop into one of the strongest and healthiest races of the world. Get them from your druggist. Do not take a substitute. In sealed packages—three sizes.

WOMAN'S CASE AMAZES OAKLAND

A business man's wife could not sew or read without sharp pains in her eyes. For years her eyes were red and weak. Finally she tried simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptil eye wash. The result produced by a single bottle amazed everyone. We guarantee a small bottle of Lavoptil to help ANY CASE weak, strained or inflamed eyes. Aluminum eye cap FREE. Osgood Brothers, druggists.—Advertisement.

Buy Made-in-California Goods

PRODUCTS OF LOCAL PLANTS SHOWN PUBLIC

"Oakland—Back, Oakland factory!"

This is the slogan of the week, for it is "Home Industry Week," under Governor Stephens' proclamation; a time to boost home-made goods and home manufacturers; to buy Oakland and California-made goods wherever possible; to mobilize the city's buyers for a great rally for the city's industries.

More Oakland manufactured goods are sold abroad than in Oakland—naturally, of course, for the wide world is a greater field for a big manufacturing plant.

But the city is determined to sell goods to the people of the city; to show them what Oakland has and what Oakland has done, not so much for the profit, but to demonstrate to the citizen what a great industrial city this really is.

INDUSTRIAL PROGRESS DRIVE

That's why the Governor, the manufacturer, and the business organizations have asked the public to buy home manufactured goods this week. That's why the merchants are showing products of the local factories to the exclusion of others in their windows.

It's a drive for industrial progress. It's a drive to make more jobs for Oakland's returning soldiers; to show the factories that Oakland is behind the manufacturers that are going to hire the boys.

It's a drive to educate the householder—the heaviest of buyers—to the fact that California-made goods and Oakland-made goods are not

Tech High to Hold Field Day Contests Scheduled For May 23

Oakland Technical high school will hold a field day on May 23, in which 2000 students, under the direction of the gymnasium and military instructors, will participate. The program for the day will include games, athletic and military drills, folk dances, and a battalion parade by the Technical R. O. T. C.

P. M. Fisher, principal, will be the reviewing officer. He will be assisted by Mayor Davis, Superintendent of Schools Fred Hunter, city officials, and Major McCauley, Oakland R. O. T. C. Senior day, which is under the direction of high and low sailors, will follow the field demonstrations.

CONTESTS SCHEDULED

The affair is an annual one besides being part of a nation-wide movement to encourage active support of all sports. It is under the supervision of C. F. Martin, Technical's director of physical education.

Featured in the boys' contests will be a baseball game between the Tech and the R. O. T. C. teams, and two basketball games.

Will be featured by all and to-yard races, low and high hurdles, a relay race, broad jumping and pole vaulting. There will also be eight boxing bouts.

only cheaper, but better than Eastern products.

It's a sentimental drive with a very practical end.

CAN BUY THEM ALL HERE

For instance, does the average householder know how much of the yearly supply of goods he buys can be purchased in "Oakland-made goods?"

Does he know that factories in Oakland make oilskin coats and roofing, canned fruits and vegetables, wire, pottery and crockery, plumbing fixtures and supplies, soda water and soda water bottle tops, medicines, serums, chemicals, meat products, glue, paint, leather goods, building supplies, tools, cotton cloth of all kinds, knitted goods and toys?

Does he know that every time he buys a can of peaches, or a toy gun, or a pair of socks, or a bit of towel or cotton with the Oakland

label, he is helping to employ a returned soldier—helping to make a better city for his own boy and for HIMSELF?

This is the lesson the week is trying to teach.

HELPS THE BUYER AS WELL

Greater consumption of home-made goods will mean greater progress for Oakland—more jobs, more money, more business, more money in circulation and a better city for the individual. He who orders home-made goods is helping HIMSELF more than the Oakland or California factory. For the factories have built the modern Oakland, and the modern Oakland needs more and greater factories to make a greater and better city.

General displays of home-manufactured articles to show the public just what can be bought are being carried out by progressive merchants. The objects of the week's drive, as set forth by the Home Industry League, are as follows:

"It has been acknowledged by the entire United States that the products of California are 'par excellence,' and as California is developing the manufacturing interests by leaps and bounds, it is frequently hard to distinguish from the exterior of packages for the market the California products from the imported article."

SHOW STATE DEVELOPMENT

"This condition prompted the Home Industry League of California to select the week of May 5 to 10 for the purpose of displaying the California-made articles and the products of the soil in the windows of every store in the State of California for the purpose of giving the purchasers an opportunity of seeing the wonderful development in the state, and to picture mentally the articles manufactured in the state of California."

"There are a number of reasons why California should patronize the industries in the state of California: 'First—The greater the consumption of California products the greater the use of the raw materials

of the state. Second—By Californians purchasing the articles made in the state our agriculturists and horticulturists will find a greater market for their products."

"Third—To establish manufacturing plants throughout the state we must make a demonstration to the prospective manufacturers, beyond a question of doubt, that we will support their industries."

MORE JOBS CREATED

"Fourth—There are thousands of boys returning from the fields of battle who need employment. Many of them, on account of having severed their connections in the Middle West and East, will select California for their future home. Some of them are agriculturists, some of them are mechanics, some are clerical men, and others professional; for them to succeed within our state we must create business that they may prosper without interfering with the prospects of those already here. In brief, the greater the use and consumption of California products within the state of California the better the boys are to succeed in California (the garden spot of the world), which will be selected by many of our returning heroes."

"During locally-made products," says Halpin Vale, president of the League, "means building pay rolls for farmers, miners, transportation employees, makers of containers, printers and all the allied trades incidental to planting, harvesting, packing, loading, boxing, transporting, wholesaling, jobbing, retailing and consuming."

MORE PAY ROLLS

"These pay rolls involve home building, taxes, clothing, food, education and the multiplied spending of each dollar, building up a volume of trade and the chronicling of events and advertisements that through the press will make known to the world California and her products and insure our political prestige."

WAR PREDICTED IN JAPAN POLICY

That the Orient furnishes a fruitful source for future conflicts and that a war may start there that will affect the nations of the world as much, or perhaps more, than the great struggle that ended in Europe last fall, was the belief expressed by Dr. Ng Poon Chow, editor of a Chinese daily newspaper published in San Francisco, in a talk today at the luncheon of Oakland den, International Association of Lions Clubs, in the Hotel Oakland.

The program is as follows: "Tech," yells, student body yell leaders, Clark Bowen, Louis Dougherty, Vernon Jeffrey, Massed Callisthenics, boy and girl students—leader, C. F. Martin; Military-Physical Education Drill, Lt. J. C. leader, A. L. Burucker; Folk Dances and Singing Games, girl students—leader, Miss H. R. Rucker; Boxing Drill, (b) Boxing Drills, more factories, more money in circulation and a better city for the individual. He who orders home-made goods is helping HIMSELF more than the Oakland or California factory. For the factories have built the modern Oakland, and the modern Oakland needs more and greater factories to make a greater and better city.

Many of them, on account of having severed their connections in the Middle West and East, will select California for their future home. Some of them are agriculturists, some of them are mechanics, some are clerical men, and others professional; for them to succeed within our state we must create business that they may prosper without interfering with the prospects of those already here. In brief, the greater the use and consumption of California products within the state of California the better the boys are to succeed in California (the garden spot of the world), which will be selected by many of our returning heroes."

"During locally-made products," says Halpin Vale, president of the League, "means building pay rolls for farmers, miners, transportation employees, makers of containers, printers and all the allied trades incidental to planting, harvesting, packing, loading, boxing, transporting, wholesaling, jobbing, retailing and consuming."

MORE PAY ROLLS

"These pay rolls involve home building, taxes, clothing, food, education and the multiplied spending of each dollar, building up a volume of trade and the chronicling of events and advertisements that through the press will make known to the world California and her products and insure our political prestige."

Mr. Oaklander

The word superior

covers a lot of territory. So do "Superior" Doughnuts and they always live up to their name.

There are a number of reasons why California should patronize the industries in the state of California: "First—The greater the consumption of California products the greater the use of the raw materials

of the state. Second—By Californians purchasing the articles made in the state our agriculturists and horticulturists will find a greater market for their products."

"Third—To establish manufacturing plants throughout the state we must make a demonstration to the prospective manufacturers, beyond a question of doubt, that we will support their industries."

SMALL RAILROADS WIN IN FIGHT ON NEW RATES

In their fight before the Interstate Commerce Commission the small railroads of the West have been aided by Attorney Postmaster General Burleson, who has accepted the rate schedule proposed by the roads, and by Burton, who said that the roads could collect for carrying mail and the manner in which the prime rates were fixed according to representatives of the Western Short Line Railroads, who have received the support of the Interstate Commission. It is said that the roads won practically every point for which they contended.

The fight was led by D. M. Swobe of the McClellan River Railroad, and C. M. Oddie, Nevada Northern, and C. M. Oddie, of the Nevada Northern, who went to Washington to make their case. The test, they say, was a foregone conclusion.

According to the Interstate Commerce Commission will not fix the rate of payment for carrying the mails, in the case of the roads, which have passed over two years ago, and suspended by Burleson in his struggle over the cost of carrying.

Further than that the Western railroads will pay the cost of carrying mail in 1916, for any shortage which

Chicago Grain

CHICAGO, May 8.—Corn prices turned down grade today, influenced by weakness in the hog market. Opening prices, which ranged from 3¢ off to 1½¢ gain, with July 31¢@31¢½, and September 31¢@31¢½, were followed by setbacks all around to well below yesterday's finish.

Flour prices which took places in the last hour were ascribed to covering of shorts and to strength in cash grain. Receipts were small. The close was strong and the same as yesterday's finish to 2½¢ higher, with July 31¢½@32¢.

member \$1.58; \$1.50.
After opening unchained to the high-
er, with July \$2.68, oats scored a
further gain before commencing to re-
act.
Provisions were easier with hogs.
Trade was light.
The close:
Corn—July, \$1.55½; Sept., \$1.53½.
Oats—July, 64½c; Sept., 66½c.
Port—May, \$3.75; July, \$5.15.
Lard—July, \$3.60; Sept., \$5.60.
Ribs—May, \$25.90; July, \$28.

advised by the department that the shipment of proprietary stamps of the new denominations would reach here in a few days. On June 1, 1904, stamps were in toilet and medium denominations taxed under section 907 of the new revenue law would have no difficulty in securing an adequate supply from internal revenue offices and postmaster's offices.

Until the distribution of these stamps can be made in sufficient numbers to satisfy the demand, the collector instructs dealers to keep a strict account of all unstamped articles sold, and that upon procuring the necessary stamps, he must at once render the collector a sworn statement of the sales made by them. In addition, he must transmit cancelled proprietary stamps of the new issue showing payment of tax.

DEATHS

FICKES—In this city, May 7, 1912, Allan Tucker Fickes, beloved son of Mrs. Max brother of Daisy M. Fickes and C. Lester H. Beryl T. H. and of the late Lawrence M. and Naomi Fickes, a native of Oakland, aged 9 years, 7 months and 2 days. FIREMEN'S AUTO RACE AND STREET VAUDEVILLE IN VICTORY LOAN DRIVE

OVER-THE-TOP
AND CLEAN-UP
DAYS PLANNED

Oakland is going over the top for the Victory Loan if the combined efforts of city officials, theatrical stars, bands, speakers, banners and posters can make it. The whole campaign for the Victory Loan will be concentrated on Friday and Saturday.

Friday will be "Over the Top" day. Saturday will be "Clean-up" day.

"It can be done," says the Victory Loan Committee, "and we are going to do it."

The Oakland city council has ordered Oakland city employees to drop their work Friday and Saturday and work for the Victory Loan.

THEATER FOLKS TO HELP
Kitty Gordon, the noted actress, has consented to help the Oakland Victory Loan. So have Irving Cummings of Ye Liberty, Jack O'Rourke, Jack Wilson of the Casino theater, the Columbia theater company, Mrs. Jellic, the songstress, and many others.

"Now let us go over the top for fair," says the Victory Loan committee.

Reports for the Victory Loan for the last few days are more encouraging. Pleasant and the city of Alameda have followed Washington Township in going over the top, and Oakland is beginning to climb.

Some recent subscriptions are causing the Victory Loan committee to be optimistic.

SHIPYARDS RAISE TOTALS
The Elston shipyard, through the First National Bank, has announced a \$200,000 subscription. Manager B. F. Shapero of the Equitable Life Assurance Society has announced a \$50,000 subscription for his company.

The Moore shipyard, at the most enthusiastic meeting yet, subscribed \$100,000 yesterday and has now subscribed more than \$200,000. The big shipyard

Branch Houses Are Urged to Add Their Bond Subscriptions

BRANCH HOUSES: COME! COME!

Branch Houses—we appreciate your good work.

With 121 houses heard from, you have raised to date \$590,850.00. With 237 more of you on the list, we should get that remaining \$909,150.00 easily.

COME! COME!

Let's have an answer in form of subscription to the Victory Loan, at once.

We NEED you, each and everyone on our list, and we need you badly.

COME! COME! Why the delay? Three days yet remain—get on the list—COME! COME!

Victory Loan Committee.

expects to reach the \$500,000 mark, says the Moore officials.

There are Victory Loan meetings all over the city today and there will be one tonight at 2312 Telegraph avenue.

TWO FEATURE PROGRAMS.
Friday and Saturday, though, will be the big days. Here is the program for both days, so far as is known at present:

FRIDAY, "OVER THE TOP DAY."
Non-fire department race up Broadway, from First street. A dozen machines will compete, with traffic cleared, ending at the city hall plaza with "stunts" by firemen.

7:15—Auction parade with every East-bay theater represented. Starts at Tenth and Broadway, up Broadway to Fourteenth, up San Pablo to Fifteenth, to Washington, to Ninth, to Clay, to Thirteenth, to the Hotel Oakland.

1:00—"Over the Top" luncheon, Hotel Oakland; a public demonstration. Those on the program will include Irving Cummings of Ye Liberty theater, June

ALAMEDA CITY IS \$100,200 ABOVE QUOTA

ALAMEDA, May 8.—Alameda is 112 per cent this morning in the Victory bond drive, with more money coming in steadily. This city will likely be 125 per cent or more by the end of the week. Following his announcement yesterday morning that the city was over the top, Drive Director Elmer E. Johnson issued a statement late yesterday afternoon that the city had reached 112 per cent, representing a surplus of \$95,450 over the assigned quota of \$726,300. The 112 per cent standing was forwarded to Victory bond headquarters in Oakland and San Francisco.

More money came in last night after the above statement was issued and when business was resumed this morning Alameda was \$100,200 above the quota. Judge Johnson said that there was still more bond money due today. He refused to predict just how much more would be received, but said that the 112 per cent showing would be materially increased before the drive closed. He gave much credit to the field workers for rolling up such a handsome showing for Alameda.

The field workers are credited with at least \$300,000, nearly half the quota, and this credit does not take into account the missionary work which the field workers started in securing to action bond buyers who did not place their orders with the field workers but dealt directly with the banks.

O'Rourke, across: Lieutenant Alexis Lane of Ye Liberty players; addressed by Mrs. Everett Brown and Rev. Charles L. Price.

2:30—District demonstration by the bands of the various park playgrounds throughout the city.

7:00—Downtown concert and vaudeville performances at all prominent corners. Boxing on stand at the Liberty Hut.

Concert by 550 War Camp Community singers at city hall. Participants in the afternoon playground events will parade downtown.

8:30—Special performances at all theaters.

SATURDAY, "CLEAN-UP DAY."
Great outdoor show in the afternoon. Bands, singing and vaudeville.

Kitty Gordon, the actress, will appear in person and will be escorted to the city hall by a special guard of honor.

Jack Wilson, black-face comedian, will sing and speak.

Entire company from Columbia theater in his performance at city hall. Rings to be given to Victory Loan subscribers.

COMMITTEES IN CHARGE.
The committee in charge of Friday performance is headed by Max Horvinski, and will include James G. Rohan, H. A. Snow, George A. Keefe, Benjamin J. Gavica, Benjamin Jellic, Colonel J. K. Ritter and George Sheper.

The committee in charge of Saturday's events will be headed by James G. Rohan and will include Max Horvinski, Colonel J. K. Ritter, George Sheper and Charles A. Price.

The "Over the Top" day luncheon at the Hotel Oakland will be under charge of the general Victory Loan men's and women's committees, headed by William Cavalier, Walter D. Cole, Joseph E. Calvo, Mrs. E. L. Ormsby and the women's committee for the Victory Loan.

MOTHERS TO BE HONORED ON SUNDAY

Mothers will be honored in Oakland Sunday at both public service and in the hearts of their children without demonstration. In the churches also they will be services in honor of the mothers here and of the mothers elsewhere of men and women who are here.

White carnations are the flowers which have been chosen to represent the love and loyalty of sons and daughters for their mothers. Those who are away from home will keep the ceremonial day by writing to their mother a letter of appreciation.

FIGHTERS TO WRITE.
The War Department at Washington is not unmindful of Mothers Day. It recognizes the wonderful part the mothers of America have played in making the world safe for democracy and through the adjutant-general has sent telegrams to army recruiting headquarters, directing that all officers and enlisted men be instructed that "it is the wish of the government that the mothers of the country receive recognition for the great part they have played in winning the war." All commanding officers have been instructed to bring to the attention of every officer and soldier the desire of the secretary of war that each officer and soldier write a letter home on Mothers' Day.

HOMAGE TO BE PAID.
Oakland's citizens are summoned to a public observation of Mothers' Day in the Municipal Auditorium theater on Sunday afternoon. Last year the first civic ceremony in honor of the occasion was arranged by the Merchants' Exchange. The same organization has appointed itself the task of arranging the ceremony. Invitation is extended particularly to mothers of the city. In some addresses and tableaux homage will be paid to the mothers of the nation, living and dead.

The committee on arrangements includes Harry G. Williams, J. J. Mullarkov, George W. Hatch, Ernest Muller, William Sears and W. P. Scott.

Special plans are being made at Arroyo Sanatorium in Livermore and the County Infirmary for an observation of Mothers' Day. Programs have been arranged for each of the county institutions. A committee is making arrangements to give to each man a stamped postal card on which to write to his own or some mother whom he knows. An appeal is made for fifteen dozen of white carnations for distribution among the women of the two public institutions.

CHURCH WHIST TONIGHT.
RICHMOND, May 8.—Ladies of Our Lady of Mercy church at Point Richmond will give a prize whist event at the church hall tonight. Political candidates have been invited to put up their cards at the affair.

FOR SOME OF US WAR WILL NEVER END
A Victory Loan Appeal From the Stars and Stripes, Official Newspaper of the A. E. F.JOINT FINDERS
JOINT KEEPERS,
COURT RULING

SAN FRANCISCO, May 8.—Joint finders are joint keepers, according to a decision by Justice of the Peace Holla E. Watt in the suit of Harry Raphael, Steiner and Geary streets, against Mrs. Lillian Cruickshank, 1507 Steiner street.

Two boys, one Raphael's son, and the other the son of Mrs. Cruickshank, found a purse. They both saw it at the same time. Also at the same time another, smaller boy found it and picked it up. The two larger boys chased him and made him drop it. The Cruickshank boy grabbed it and found that it contained \$310 in currency. The teenaged boy demanded half and was refused. His father sued the mother of the Cruickshank boy and received judgment. The little fellow who first picked it up received nothing.

Family Fails to Get
Revolver; Kills Self

After his family had made repeated attempts to get the revolver from his possession, Conrad Helmske, 66 years old, living at 2350 Webster street, committed suicide last night by shooting himself behind the left ear with a .38-caliber revolver. Helmske, who had been ill for several months, was found by his daughter. An inquest will be held today.

GUNS, SIRENS,
WHISTLES IN
BOND DRIVE

At 5:15 o'clock this morning there broke loose a pandemonium of noise which awoke hundreds of Eastbay residents from their peaceful slumbers. It was no message by death and destruction, but San Francisco, unable to raise her quota in the Victory Loan by the "calm, deliberate effort" which was to mark this last peace-time drive, turned loose all of the coast defense guns in the various forts of the city, all of the factory whistles and all the sirens of all of the bay craft, in an endeavor to bring the city to a realization that its debt would not be paid until every penny of its \$79,318,150 quota is subscribed.

The time, 5:15 a. m., was thirteen years, two weeks and six days to the second after the time when the disaster of 1916 brought ruin to San Francisco.

What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Feltch, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-Good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Genuine Castoria always bears the signature of *Dr. J. C. Feltch*

Heavy Saloon Door

Baffles Burglar

A burglar tried to enter the saloon of William Breckenfelder at 1638 Seventh street, last night, but found the two-inch door too much for his knife. He failed to get into the main saloon. The burglar, however, cut through two light doors and got into the back storeroom, where Breckenfelder keeps a store of wine, but no indications none of the wine had been touched.

Breckenfelder thinks whisky kept in the front part of the saloon was the object of the attempted burglary.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

The DUO-ART Piano

Brings the Greatest Pianists Into Your Home

To hear in one's own home the music of the pianoforte, played by the greatest pianists of the day, is a privilege that few have ever enjoyed. But the wonderful privilege may now be yours—through the Duo-Art Piano. This remarkable new instrument, actuated by the Duo-Art music-rolls, which are accurate records of the great artists' playing, reproduces the interpretations by these famous musicians so perfectly that it is like hearing them play in person.

Remember, the Duo-Art Piano is also a player instrument at which you may sit and play any roll according to your own interpretation. We cordially invite you to come in and hear this marvelous instrument.

ROYAL SHOE CO.—WASHINGTON AND 13TH

"In Oakland it's the ROYAL for SHOES"

Crowds of happy, eager shoppers are buying shoes during this

EXPANSION SALE!

Why the Sale?

GENUINE VALUE-GIVING has done what only genuine value-giving can do—it has built the Royal Shoe Company up to the point where we have had to enlarge—where we have had to take this entire building.

We are given possession much sooner than we had planned for—and now, with enormous stocks of summer shoes on hand, the contractor pleads for room to remodel.

Before the rip of saws and the rap of hammers begin to cry forth—**EXPANSION—EXPANSION**—we are compelled to reduce those stocks.

Why the Crowds?

PRICES on shoes are going up—UP—yet right in the teeth of advancing costs we are selling men's, women's and children's shoes at lower than the old lower prices!

This sale is a really remarkable event—and small wonder that crowds have been taking advantage of the opportunity to save money on shoes.

Do not put off buying—for just as soon as we have reduced stocks sufficiently to make room for the workmen who will remodel our building, the opportunity to save so handsomely will have gone by.

"J. & J." Green Stamps with all purchases! Ask for them.

As an illustration of the remarkable values

Pumps and Oxfords
